a.Strengthening & Widening/ Resurfacing/ Renewal Work

- i. Any asphalt work done by paver such as AC/ BC/ DBM/ SDBC/ BM/BUSG.

b. Widening Work

i.Widening upto 7 mt of carriageway

- 1.Any work of widening of carriageway to minimum 5.5 m carriageway and should have items of WBM/ WMM and paver laid asphalt work.

OR

- 2.New road construction works (minimum carriageway width not less than 3.5 m) involving items of WBM/WMM and paver asphalt

ii.Widening upto 10 mt of carriageway

- 1.Any work of widening of carriageway to 10 m

OR

- 2.Any work of carriageway widening involving addition of carriageway not less than 3.0 m.

OR

- 3.New road construction works (minimum carriageway width not less than 3.5 m) involving items of WBM.WMM & paver laid asphalt work.

~~c. New Road/Four lanning/ Six~~

- ~~1.New road construction works (minimum carriageway width not less than 3.5 m) involving items of WBM/WMM and paver asphalt~~

~~OR~~

- ~~2.Any work of widening carriageway upto 10 m.involving items of WBM and WMM plus asphalt work done by paver.~~

~~OR~~

- 3.Any work of carriageway involving addition of carriageway not less than 3.0 m.

Note: For prequalification cost of the work involving road widening is to be considered. If there is a

package of works / single work consisting combination of resurfacing.

Strengthening and widening of road. Only cost of road widening carried out is to be considered for financial criteria. For example (1) If package consisting three road works in which one work is for strengthening, one work is for resurfacing and other work is for widening of road than cost of widening work is only to be considered for criteria of successful experience (2) If any single work consisting roadworks in which strengthening, resurfacing and widening of road than cost of widening work is only to be considered for criteria of successful experience.

2. Bridge Works:

- ~~(i) Any bridge work having completion cost more than 40% of the amount put to tender, and~~
- ~~(ii) Bidder shall have experience during last 10 financial years of executing bridge/s involving similar type of foundation and superstructure.~~

3. Any work which does not fall in above categories definition or of nature of similar work shall be approved from competent authority.

(C) Bid Capacity

- I. The bidder must have **Available Bid Capacity (ABC)** more than the amount put tender.

$$A B C = 2.0 \times A \times N - B$$

Where

A is the maximum of updated total amount of works executed in any one year of the of the last five financial years i.e from **2021-22 to 2025-2026**

N is the number of years prescribed for completion of the proposed work.

B is the amount of the existing commitments and ongoing works to be discharged during time interval of N years from the bid due date.

For the purpose of updating amount of works executed in any year, procedure narrated in para 2(a) ii shall mutatis mutandis apply.

Existing commitments shall include all such works for which letters of acceptance of the renders have been received by bidder till the date on which bidder has submitted his bid for the proposed work

(3) Other Requirements

a. Bidder's registration

- i. Only those bidders shall bid whose names are borne on the approved list of registered contractors in the required class & category with Gujarat State R. & B. Department / W.R.D."AA" class with Special Category(Road) with state of Gujarat.

- ii. The contractors, who are registered in appropriate category of C.P.W.D., M.E.S., Railways and Indian State Governments, can also bid provided the bidder produce such registration certificate at the time of bidding and obtain registration in required class & category from the Gujarat State R&BD / W.R.D before issuing Work Order. Bidder will solely be responsible for obtaining the required registration.

b. LITIGATION HISTORY

The applicant should provide accurate information on litigation and/or arbitration resulting from Contracts completed or under execution by him over the last five year. A consistent history of arbitration awards / judgment against the applicant or any partner of a joint venture may result in disqualification for proposed work. If the details of Litigation History is hidden by the applicant and later on it comes knowledge of the employer the bidder shall be disqualified for the proposed work and other appropriate actions shall be taken against the bidder.

c. Machinery / Equipment

Bidder shall have to assure availability of machinery/ equipments in working condition as per Appendix-B. In case of non submission of below details, the bidder has to submit this availability of machinery/ equipment before issuance of work order. Machinery ownership document or lease/hire agreement for the work under tender shall be considered as valid proof for assured availability

APPENDIX-B

Road Works

Sr.No.	Equipment type & Characteristic	Minimum Required
(1)	Tipper Trucks	10
(2)	Motor Grade	2
(3)	Dozer	1
(4)	Front end Loader	2
(5)	Smooth Wheeled Roller	2
(6)	Vibratory Roller	2
(7)	Hot Mix Plant with Electronic Controls (minimum 60-70)	1
(8)	Paver finisher with Electronic Sensor	1
(9)	Water Tanker	3
(10)	Bitumen Sprayer	1
(11)	Tandem roller	1
(12)	Concrete mixers with integral weigh batching facility	2

(13)	Concrete batch mixing plant minimum capacity 15m3/hour	1
(14)	Densitometer	1

d. Bidding in E-tendering

- i. Submission of application must be through-e- tendering i.e Electronic form
- ii. Bidders shall-have to submit the bid in E-Tendering form only.
- iii. Bids of those bidders who have submitted all information, statistical details as required in the bid documents through E-tendering will only be considered. If the employer desires any clarification, for verification/clarification, ambiguity or difference found in the documents/statistical detail submitted online {By E - Tendering) by the bidder the same shall be furnished within stipulated time otherwise further processing will be carried out in absence of above and the bidders shall be liable for any consequence.
- iv. No bidder can participate in more than one bid for proposed work.

e. Submission of documents

- i. Following documents/papers shall from part of the bid.
 1. Annual turnover certificates issued by Chartered Accountant for last five financial year.
 2. Form 3A issued by employer to substantiate successful experience of similar work. When employer of similar work is not a government, Following need also to be furnished.
 - a. Self attested copy of Work order
 - b. Self attested copy of Agreement
 - c. Self attested copy of Completion Certificate
 - d. Self attested copy of Final Bill
 - e. Self attested copy of TDS certificate
 - f. Self attested copy of letter of permission given by employer for subletting the work.
 3. Existing commitments and ongoing works as per Schedule-E
 4. Litigation/Arbitration history
 5. Proof of Assured availability of required machinery/equipment
 6. An undertaking for truthfulness of information furnished
- ii. Any information, data, statistics etc. which are not related to bid document will not be considered in evaluation even though furnished by the applicant.

- iii. In accordance with stipulation of para 3D (iii) Employer reserves the right to call any information/document which is mandatory, essential and critical for the purpose of evaluation. Any information provided by the applicant after last date of Electronics submission will not be considered in evaluation, unless except the employer has specifically asked for any information/document, which is mandatory, essential and critical for evaluation of PQ document. If required information is not furnished within stipulated time, proposal will be liable for rejection.
- iv. If any of the information provided by the bidder is found false during scrutiny or at the later stage, his EMD shall be forfeited and he shall be disqualified for the proposed work. In case when bidder has furnished exemption certificate in lieu of EMD, and amount equal to EMD shall be appropriated from his FDR pledged to avail of exemption certificate. If any of the information provided by the bidder is found false after award of work, the performance security of the bidder shall be forfeited and the contract shall be terminated.

4) Escalation Factors

Following enhancement factors will be applied to annual turnover and completion cost of works to bring them to the base year. The current financial year in which bid is invited shall be considered as the base year

Year	Financial Year	Enhancement Factor
Base : (Year of inviting tender)	Base : 2025-2026	1.0
	2024-2025	1.1
	2023-2024	1.21
	2022-2023	1.33
	2021-2022	1.46
	2020-2021	1.61

In case the financial figures and value of completed works are in foreign currency, current market exchange rate will be applied for the purpose of conversion foreign currency into Indian Rupees.

Applicant will indicate actual figures of costs and amounts in the schedule without accounting for the above mentioned factors.

(F) Site Laboratory :

Contractor shall have to provide site laboratory and Quality Control Engineer at his own expenses to carry out field test (As per statement attached).

For this purpose a laboratory building measuring 25 Sq.mt. shall be constructed by the contractor which shall have necessary facility of light, water etc.

Note :

1) The above information may be furnished for each machinery and equipment listed herewith.

2) The location of machinery should be furnished in detail.

i.e.(i) Site of work (ii) Own Workshop (iii) Other places

3) The documents regarding ownership of machinery/ equipment etc and self attested copies of hire purchase agreement if it must be enclosed and for to be produced the copy of work order placed shall be furnished.

If leased indicated the date when the current lease expires.

4) Describe the fabrication and workshop facilities (a) to be set up at site (b) to be sub contracted locally (c) to be set up any other place with relevant details.

5) The above information shall be supported with necessary documents otherwise the same shall be treated as null & void.

PRE-QUALIFICATION APPLICATION

DESCRIPTION OF WORK :- WORK OF CONSTRUCTING, WIDENING, STRENGTHENING AND RESURFACING VARIOUS IMPORTANT ROADS AND WHEN REQUIRED OR IN EMERGENCY UNDER KUTCH-BHUJ (PANCHAYAT) ANNUAL BASIS DIST. KUTCH Taluka Bhuj & Mandvi

The Superintending Engineer
Gandhinagar Panchayat R. & B. Circle
2nd Floor, Panchayat Bhavan
Sector : 16
Gandhinagar

Dear Sir,

Having examined the pre-qualification documents including scope of works & time frame of construction, we hereby submit all the necessary information & relevant documents for pre-qualifying us for bidding for the above mentioned works.

The application is made by us on behalf of _____
_____ in the capacity of _____
_____ duly authorized to submit the offer.

The necessary evidence admissible in law in respects of authority assigned to us on behalf of the firms for applying and for completion of the Contract documents is attached herewith.

It is Certified that the information furnished in these documents is authentic.

We undersigned accept that Employer (Govt.) reserves the right to reject any or all applications without assigning any reasons.

Date :

Signature of Applicant,

Name in Brackets including
Title & capacity in which
Application is made

ENCL :

1. Schedule duly filled in the prescribed form.
2. Evidence of authority to sign.
3. Latest brochures
4. Required E.M.D. in form of. FDR

Performa C-1

DECLARATION / UNDERTAKING

1. I / We agree with the decision of the R. & B. Department, Sachivalaya, Gandhinagar hereby referred as client in selection of Applicants / Contractor, phasing of works and in any other project related matter, will be final and binding to me / us.
2. All the information and date finished herewith are correct to my / our best of knowledge.
3. I / We agree that we have no objection if inquires are made about out works, its related areas and any other inquiry regarding all details, projects and works listed by us in the Pre – Qualification documents.
4. I / We also understand that furnishing of wrong information or hiding of any information shall be cause of disqualification.

Date :-

Signature with seal of the Company.

	Name of Testing Equipment	Minimum Requirements	Equipment with Agency	
			Equipment in hand	Equipment to be procured
	required accessories about 0.02 cum capacity electrical operated fitted with hitting jacket.			
	Vii) Marshal stability apparatus electrically operated completed with all accessories as per ASTM11559-62 T	1 Set		
	viii) Core cutting machine with 10 cm and 15 cm die diamond cutting edge.	1 No.		
	ix) Metallic & digital Thermometers range up to 300 C	6 Nos.		
	X) Apparatus for specific gravity of bitumen as per the relevant specification.	2 Nos.		
	Xi) Viscosity determination apparatus (Kinematics) as per the relevant IS specification.	1 Set		
	Xii) Swell test apparatus to asphalt institute MS-2 NO-2 specification.	1 No.		
	XIII) Densitometer Pavement quality Indicator (PQ) 301	1 No.		
	IX) Asphalt Extraction	1 No.		
2	B - For Cement and Cement Concrete			
	I) Vicat needle apparatus as per IS-269-1967	1 No.		
	II) Moulds			
	a) 150mm dia. x 300mm height cylinder with capping component	As required		
	b) Cubes 150mm and 100mm size.	As required		
	c) Cubes 70.7 mm for cement mortar	As required		
	III) Concrete Permeability Apparatus as per the relevant IS specifications	1 No.		
	IV) High frequency mortar cube Vibrator for cement testing	1 No.		
	v) Concrete mixer power driven, 0.03 m3 capacity	1 No.		
	Vi) Variable frequency and amplitude vibrating table size 1 meter x 1 meter as per the relevant British standard.	1 No.		
	Vii) Flow table as per the relevant IS specifications.	4 Nos.		
	Viii) a) 2000 kN (Least count 10 kN) compression testing machine for concrete cube.	1 No.		
	b) 500 kN (least count 2 kN) compression testing machine for cement mortar cube.	1 No.		
	Ix) Equipment for slump test	4 Nos.		
	X) Equipment for determination of specific gravity for fine and coarse aggregate as per IS 2386 (part)1963	1 No.		
	XI) Flexural attachments to compression testing machine.	1 No.		

	XII) Needle Vibrator	4 Nos.		
	VIII) Soundness testing apparatus for cement	1 Set.		
	IX) Rebound hammer for non destroyer test	1 No.		
3	C – For Control of Profile and surface Evenness			
	I) Total Station	1 Set.		
	II) Theodolite	1 Set		
	III) Precision automatic Level	2 Sets		
	IV) Precision Staff	3 Sets.		
	V) 3 Meter straight edge and measuring wedge	3 Sets.		
	VI) Camber templates 2 lane			
	a) Crown type cross – section	As per requirement		
	b) Straight run cross – section	As per requirement		
	VII) Steel taps of road			
	A) Steel tape	2 Sets.		
	B) 5 m long	20 Sets.		
	C) 10 m long	2 Sets		
	D) 20 m long	2 Sets		
	E) 30 m long	2 Sets.		

F- Any other equipment which is not mentioned here but which is necessary for complying with the provision of the Contractor or as required by the Engineer.

In the absence of any equipment as per test requirements of section 900 of MOST specification the same shall be provided by the contractor at any time as directed by the Engineer. No extra payment shall be made to the contractor.

Signature of Applicant

PROJECT **INFORMATION**

PROJECT INFORMATION

WORK AND SITE CONDITION

Introduction

WORK OF CONSTRUCTING, WIDENING, STRENGTHENING AND RESURFACING VARIOUS IMPORTANT ROADS AND WHEN REQUIRED OR IN EMERGENCY UNDER KUTCH-BHUJ (PANCHAYAT) ANNUAL BASIS DIST. KUTCH BHUJ - MANDVI

General contractors, backed-up specialists, who wishes to bid for this contract, should apply for qualification in the manner set out in this document. The other tender documents will be opened subsequently only of those parties selected by the employers, as having necessary qualification, suitability to perform the contract satisfactorily. Tender documents for technical bid along with "Price Bid" shall be available on line to Contractors / Firms. Contractors Registered in "AA" Class & Special Category-I (Road) in Gujarat State or the Highest Class of Registration to undertake Road work of unlimited amount in respect of other State with the State Public Works Department having turnover more than the estimated cost for the individual contract in any one year of the last five financial year or the Firm. The Firms having registration of other states authorities must get themselves registered in **Special Cat. I (Road) class & "AA" class** with the (R&B) Department Government of Gujarat before opening of the price bid. If this is not done before opening of price bid their tender will not be considered. In this regard, the decision of the Gandhinagar Panchayat R&B Circle Gandhinagar will be final. No claim on this account will be entertained.

Bench Mark

Standard bench shall have to be established and connection to the G.T.S. bench mark with reference to which the whole work shall be carried out. The contractor shall establish reference bench mark at suitable spot. The maintenance of the reference bench marks shall be the responsibility of the contractor.

Site Condition

The site

It shall be deemed that the contractor has satisfied himself as to nature and location of the work general and local condition and particularly these pertaining to transport handling and availability

of storage of materials, availability of labour, weather condition, high and low tides, highest combined effect of tide floods, tidal variation at the site ground level and that the tenderer has estimated his cost accordingly and Government in no case will be held responsible for the staff accommodation or any deductions, interpretations or conclusion drawn from the contractor.

Climatic Condition

The climatic in this region is moderately hot and humid. The monsoon depends upon the advance of the south west wind but the normal rainy seasons commence from early June and last upto October in the region of work. But occasionally, shower or two may be expected over earlier. There is generally no rain beyond October though some stray may be experienced. The yearly total rainfall in the area is about 100 cms. the climate during winter season goes down to about 12°C. In summer (i.e. April to June), the weather is hot and sometimes the temperature goes upto 45°C.

Availability of Labour

Some unskilled labour and batsmen used to manning ordinary country craft may be locally, but skilled labour will hardly be available in the immediate neighbor hood for work of this type and magnitude.

Marketing Center

Nearest marketing center for daily necessitation is Bhuj city.

Housing, Water Supply and Drainage etc.

Some facilities may be available in Bhuj, Gandhidham, Anjar, Mandvi city and nearby village. The contractor has however to make his arrangement for land for housing, stores, fields, officer, accommodations for his labour and other employees etc. at the site of work.

Railway and Postal facilities

Nearest big railway station is Bhuj & Gandhidham about _____ away from the site.

Materials

The materials will be available from the quarries. But the exact details regarding quality, transport, facilities, for the same etc. may be ascertained by the contractor beforehand.

Asphalt will be brought by the contractor. All other materials will have to be arranged for and brought by the contractor of their own.

No sales tax or any other tax on any of item to be supplied by the department as per Schedule "A" is payable.

No Government machinery will be available for this work and the contractor will have to take his own arrangement in this regards.

CLIMATE:

(a) TEMPERATURE:-

The project road lies in the State of Gujarat. This state is situated in western part of India and has semi arid climate Ref. Index. Map. Large part of the state lies between 35° C and isotherms. May is the hottest month and January the coldest. The isotherm generally run east west and the temperature increase steadily as one moves southwards.

(b) RAIN FALL:-

Gujarat receives most of its rainfall form the south - west monsoon between June and September with maximum intensity in July and August. The monsoon arrives earlier in the south and east and last longer than in the northwest. Hence the rainfall intensity ranges from over 2400mm in the southwest to less than 250mm in the extreme west. Some depressions and cyclones in the Arabian Sea which across the coastal area sometimes bring rains and strong winds in the months of April to June and October to November.

The State can be divided into four different rainfall zones:

- i. Areas with more than 1000mm rainfall include the districts of Valsad, Dangs, Surat and the eastern parts of Bharuch with Rajpipla Hills.
- ii. Areas receiving rainfall between 800mm and 1000mm include Panchmahals, Vadodara, Anand, Kheda and part of Ahmedabad.
- iii. Areas having rainfall between 400 mm and 800mm include Saurashtra and areas north of Ahmedabad.
- iv. Areas receiving less than 400 mm rainfall include Kachchh - Banaskantha and Coastal Jamnagar.

(c) HUMIDITY:-

The relative humidity in all parts of the State, with the exception of the coastal areas is low in the summer the relative humidity varies from 75 and 80 percent in winter from 40 to 50 percent. The coastal areas, on the other hand, have moderately high humidity all the year round with a maximum in the summer months reaching as high as high as 90 percent.

(d) HYDROLOGY:-

Narmada river is the major river (perennial) in the south of the state which serves as the main water source for drainage - Narmada river, river discharge in to Gulf of Khambhat.

(e) TOPOGRAPHY:-

Gujarat is located in western side of the India and bounded by the State of Rajasthan in the north, Madhya Pradesh in east and Maharashtra in south. It has also an international border with Pakistan on its north for length of about 360km. The state of Gujarat covers a total area of 195,904 sq.km. and is situated between 20°06" to 24°42" North latitude and 68°10" to 74°24" East longitude. The state has the longest coastline in the country measuring about 1600 Km. along western part of India, extending from Lakhpat in North to Damam in the south.

The state is divided into five major physiographic divisions.

- i. The Alluvial Planins extend in North Gujarat to Bulsar in the south, and westward to the little Rann and Banni area of Kachchh.
- ii. The Eastern hilly tract lies between the altitude of 300-1400m and forms a major divide.
- iii. Uplands of Kachchh and Saurashtra consist of sandstone shale and basalt rock with elevations of about 150-500 m sloping radically towards the coast. The Girnar hill forest is at an elevation 1117m.
- iv. The low- laying coastal tract ranges in elevation from 3-25 m surrounding the Kachchh and Saurashtra uplands. These low laying areas extend from Rann of Kachchh to little Rann of Kachchh and to the low laying delta region of Bhadar, Bhoqavo, Mahl, Dhadar. Narmada and Tapi rivers.
- v. The Marshy to saline desert of Rann of Kachchh and little Rann of Kachchh extend into the saline Tracts around the Gulf of Cambay. This vast fields of salt mixed with clay is devoid of any vegetation or habitation. The general elevation of this tract varies between 3 to 10 Mts.

(f) ACCESS TO SITE:-

Gandhinagar the state capital is about 950km. away from the National capital (New Delhi). The state is accessible by road, rail and air from the National capital as well as from other metropolitan cities of the country. The main arterial highway traversing

through this state is NH-8 linking Delhi to Mumbai. It enters the state from Rajasthan near Shamlaji and touches important towns of Ahmedabad and Vadodara and enters into Maharashtra from its southern border.

(g) ROAD TRANSPORT FACILITY:-

Passenger Road Transport in the state is mainly provided by Gujarat State Transport Corporation, a State Government undertaking Goods transport operation is with the private sector. Site is where Kutch is situated in western part of Gujarat.

(h) COMMUNICATION FACILITIES:-

The communication facilities in the State consist of post, telegraph, telex and fax. These facilities are provided by the Post and Telegraph Department of Government of India. Besides private sector operated courier, fax and other similar services, Government facilities also exists in all important cities of the state.

(j) PROJECT LAYOUT:-

Project layout for the contracts is given in the Index Map.

(k) EXPECTED CONSTRUCTION PERIOD:-

Expected construction period form contracts is **12 months (Twelve)** form the date of award.

(i) FACILITY AND SERVICES PROVIDED BY THE EMPLOYER:-

Free access to the work sites will be assured by the Employer for expected Agencies.

(m) OTHER RELEVANT INFORMATION:-

i. Soil Characteristics.

The Soils of Gujarat state can be classified into Black Cotton Soils. Alluvial Soils, Saline Alkaline Soils and desert Soils.

a) Black Soils: The black soils are either medium black or deep black.

i) Medium Black Soil:- Medium black soils are found in Saurashtra, some parts of Sabarkantha and Panchmahal district.

South- West of Ahmedabad and parts of Vadodara and Kachchh district. This soil type is not so deep. Soil textures clay loam to clayey.

- ii) Deep Black Soil. The deep black soils are found in the district of Vadodara, Bharuch, Surat and Valsad, Soil depth varies from less than one meter to as deep as six meters. These soils have very heavy clay content. Montmorillonite per domination.
- b) Alluvial Soils: These soils in Gujarat are formed due to silting by Indus river system. These soils occur through Banaskantha district and the greater part of Mehsana and Sabarkantha. Ahmedabad, Kheda district, Further more alluvial soils also occur in the northern part of Vadodara and Jambusar and eastern part of Surat and Valsad district.
- c) Saline - Alkaline Soils: These soils are found in " Bhal Tract" of Bhavnagar, Ahmedabad, and Kheda district and also in southern part of state along the sea coast except in Bharuch, Surat and Valsad district. Saline soil is also found in portions Kachchh. Mehsana and Banaskantha district due to less rain - fall and high evaporation.
- d) Desert Soils: These are mainly found in Rann of Kachchh (Northern and north - eastern parts).
- e) Earthquake Zone: The District of Kachchh comes under the Zone-5 of the earthquake where as districts of Saurashtra comes under Zone-3 & Zone-4. The part of Bharuch district comes under Zone-4 where as other district of Gujarat comes under Zone-3. Since the district of Kachchh and some district of Saurashtra, part of Bharuch district comes under Earthquake Zones of moderate intensity, necessary precautions are to be taken for the construction works.

TECHNICAL SPECIFICATIONS

PREAMBLE:-

The Technical Specifications contained herein shall be read in conjunction with the other Bidding Documents as specified in this Volume.

Site Information:-

The information given here under provided elsewhere is given in good faith by the Employer but the Contractor shall satisfy himself regarding all aspects of site conditions and no claim will be entertained on the plea that the information supplied by the Employer is erroneous or insufficient.

GENERAL REQUIREMENTS:-

The technical specifications in accordance with which the entire work described herein after shall be constructed and completed by the Contractor shall comprise of the "SPECIFICATION"

Though "SPECIFICATION" for each item are attached with tender they are based on following.

- (1) "SPECIFICATION FOR ROAD AND BRIDGE WORKS" (Fourth REVISION printed in year 2001) issued by the Ministry of Road Transport & Highways (MORT & H), Government of India and Published by the Indian Roads Congress, hereinafter to as MORT & H Specifications.
- (2) The General Technical Specifications for Road works.
- (3) The General Technical Specifications for Bridge works.

Note:- (2) To (3) are Conventional Specifications Booklets usually attached for (R&B) Works.

If, a particular clause (which is in corporate in "SPECIFICATION") of specification booklets (1) to (3) above is Amended / Modified/ Added upon then the Amendment/ Modification/ Addition shall supersede the relevant clause incorporated in " SPECIFICATION"

In, so far as Amended / Modified / Added Clause may come in conflict or be inconsistent with any of the provisions of the MORT & H Specifications under reference, the Amended/ Modified/ Added Clause and the additional specifications shall always prevail.

In the absence of any definite provisions on any particular issue in the aforesaid Specifications, reference may be made to the latest codes and specification, of IRC and BIS in that order. Where even these are silent, the construction and completion of the works shall conform to sound engineering practice as approved by the 'Engineer' and , in case of any dispute arising out of the interpretation of the above, the decision of the 'Engineer' shall be final and binding on the Contractor.

Executive Engineer,
Panchayat (R&B) Division
Bhuj-Kachchh
