Sr. No.	Name of Items	Specifications	Approximate Two Yearly Total Requirement	Unit of Measurement (Per Pcs)	Packing Available	Brand Name	Mfg. Name
38	Air Bed with Pump	Anti Bedsore Mattress based on alternative pressure pad and pump system. Power supply: 220V/50Hz, 1A/250V, Air output: 6-8 liter/min. Pressure range: 30 mmHg – 100 mmHg. Top cover: Nylon / PU with button Size:190cm(L) x 85cm(W) x 11cm (H). Exchangeable air cell, water proof. Low Noisy, Long life time benefit. Without CPR valve. Anti Bedsore Mattress (Air Jet Type).Tiny Holes on the surface for decreasing humidity. Replaces the foul air and reduce growth of microbes.Power supply: 220V/50Hz, 1A/250V, Air output: 3.5-4 liter/min. Pressure range: 50 mmHg – 90 mmHg. Material: PVC Size:200cm(L) x 90cm(W) x 6.5cm (H) Low Noisy, Long life time benefit	23	Per pcs			
39	AMPOULE CUTTER	Easy to use,Compatible with common ampoule sizes,effortless open-every-time solution due to extended lever action, Reusable and washable	62	Per pcs			
40	Apron Plastic large	-	13	Per pcs			
41	APRON-PLASTIC 32" X 50" NON STERILE	32" x 50" Non Sterile	54600	Per pcs			
42	B.P. cuff with tube. Adult	Adult ,Premium Quality	7	Per pcs			
43	B.P. INSTRUMENTS DIGITAL	Measurement Unit : mmHg, Minimal Scale : LCD/LED Column 2mmHg, Pressurization : Manual by Bulb, Depressurization : Manual by Air Release Valve	1	Per pcs			
44	Biochemical Indicator (Cycles)- 1243B	-	146500	Per pcs			
45	Blood Pressure Recording Unit Digital Automated	-	3	Per pcs			
46	CIDEX TRAY	-	1	Per pcs			
47	stethoscope	stethoscope should offers a convenient, tunable diaphragm in a single-sided, coated alloy chestpiece designed to provide reliable and clear acoustics. The stethoscope offers the portable convenience of a single-sided chestpiece. A tunable diaphragm conveniently alternates between low and high frequency sounds without the need to turn over the chestpiece.	55	Per pcs			
48	Documentation Label Plasma ( Sterilization )	-	57	Per pcs			
49	Drum for Autoclave 11x9	11	18	Per pcs			
50	Drum for Autoclave 12x15	12	26	Per pcs			
51	ECG CHEST ELECTRODES	-	100750	Per pcs			
52	ECG Paper Roll - 6108T	(CARDIART 6108T Automatic Machine - AUTOMATIC MACHINE)	500	Per pcs			
53	ECG PAPER ROLL - 80mm * 20 mtr	( CARDIART 80mm * 20 mtr Automatic Machine - AUTOMATIC MACHINE)	500	Per pcs			
54	CHART PAPER FOR DG-400 (EGC PAPER ROLL)	Compative Schiller	123	Per pcs			
55	ENDO CERVICAL BRUSH WITH SPECTULLA	-	50	Per pcs			
56	EXTENSION PIPE LINE PVC TUBE WITH THREE WAY STOP COCK- 100CM	Non Toxic ,Non pyrogenic sterile E.O 100 cm.	44319	Per pcs			
57	EXTENSION TUBE 10 CM	10 CM	50	Per pcs			
58	Makintosh Rubber sheeting.	1100 mm	905	Per pcs			
59	Paper Printer Two Ply Product Code 40-03175-002	-	27	Per pcs			
60	PATIENT IDENTITY BANDS	RED, GREEN AND BLUE COLORS, Plastic Coating	178950	Per pcs			
61	PATIENT IDENTITY BANDS-BLACK	BLACK	60	Per pcs

83	TRAY WITH LID 12 X 18	-	10	Per pcs			
84	Urine Pot Plastic	-	52	Per pcs			
85	Weight Machine Standard Quality Size30x30x6cm (Weight Scale Analog)	-	15	Per pcs			
86	WEIGHT SCALE DIGITAL	-	10	Per pcs			
87	ECG CHEST SUCTION BULB		24	Per pcs			
88	DISPOSABLE SCOUTTUBE FOR SPIRO SCOUT	-	1000	Per pcs			
89	Tracheo-esophageal voice prosthesis Kit Size 17,20,22.5 Fr * 8mm, 10mm & 12.5mm Shaft Length	KIT Contains 1 Sterile Pharynx Protector made of Transparent Thermoplastic, 1 Sterile Puncture Needle made of Surgical Stainless Steel, 1 Sterile Guidewire made of pre-colored Fluoroplastic, 1 Sterile Puncture Dilator made of Thermoplastic Elastomer and Polypropylene with Preloaded Voice Prosthesis made of Silicone grade Medical rubber with fluoroplastic material of value and 1 Non-Sterile Brush. Used for retrograde primary and secondary insertion. CE marked, compliant with EU MDR 2017/745. Manufactured under ISO 13485 quality management standards.USFDA registered medical device	10	Per pcs			
90	Tracheo-esophageal voice prosthesis indwelling low pressure coated for anterograde insertion via stoma Size 17,18,22.5 Fr * 4,6,8,10,12.5 &15mm Shaft Length	Sterile Voice Prosthesis KIT Contins 1 Sterile Puncture Dilator made of Thermoplastic Elastomer and Polypropylene with preloaded Voice Prosthesis made of Silicone grade Medical rubber with fluoroplastic material of value and 1 Non-Sterile Brush. Used for replacement of Voice Prosthesis or Primary insertion when patient while remain in situ. CE marked, compliant with EU MDR 2017/745. Manufactured under ISO 13485 quality management standards.USFDA registered medical device	5	Per pcs			
91	HME's XtraMoist ( Heat and Mositure Exchangers)	Calcium Chloride impregnated Sponge Filter with Extra Airflow & Extra Moisture humidier property having movable disc which enable Speech Function.CE marked, compliant with EU MDR 2017/745. Manufactured under ISO 13485 quality management standards.USFDA registered medical device	10	Per pcs			
92	HME's XtraFlow ( Heat and Mositure Exchangers)	Calcium Chloride impregnated Sponge Filter with Extra Airflow & Extra Moisture humidier property having movable disc which enable Speech Function.CE marked, compliant with EU MDR 2017/745. Manufactured under ISO 13485 quality management standards.USFDA registered medical device	10	Per pcs			
93	Lary Tube	Soft Silicon Laryngectomy Tube having conical shape at the base, non traumatic smooth edges at the bottom with 2 loops for Neckstrap attachment, with or without Fenestration and 5 nos of Heat & Moisture Exchanger .CE marked, compliant with EU MDR 2017/745. Manufactured under ISO 13485 quality management standards.USFDA registered medical device	10	Per pcs			
94	LaryButton	Soft Silicon Laryngectomy button for voice & pulmonary rehabilitation and patient with shrinking stoma. non traumatic smooth edges at the bottom with 2 loops for Neckstrap attachment with outer diameter 12,14,16 & 18mm with 8,18mm lengh. HME access connector. CE marked, compliant with EU MDR 2017/745. Manufactured under ISO 13485 quality management standards.USFDA registered medical device	10	Per pcs			

**GROUP- 18 Miscellaneous Hospital Goods**

Sr. No.	Name of Items	Specifications	Approximate Two Yearly Total Requirement	Unit of Measurement (Per Pcs)	Packing Available	Brand Name	Mfg. Name
95	hydrocolloid adhesive HME dressing	<p>Latex-free and hypoallergenic. Required in Round, Oval, and Plus shapes to suit different neck anatomies and stoma sizes. Central connector opening compatible with all VP HME and ShowerAid systems. Flexible, low-profile design for discrete and comfortable daily wear. Gentle removal without skin damage or residue HME access connector. CE marked, compliant with EU MDR 2017/745.</p> <p>Manufactured under ISO 13485 quality management standards. USFDA registered medical device. Individually packed and sealed in boxes of 10 or 20 pcs. Clearly labeled with reference number, batch, and expiry information. Compatible with Provox HME Cassettes, Provox ShowerAid, Provox LaryButton, and LaryTube systems. Can be used interchangeably with other Atos Medical Provox adhesives</p>	10	Per pcs			
96	TubeHolder	<p>The design should be specifically developed for secure fixation of LaryTube and LaryButton. As well as to hold tracheostomy and laryngectomy devices securely in position without adhesive. It should be Made of soft, skin-friendly, hypoallergenic fabric suitable for users with sensitive skin around the tracheostoma. It should be Latex-free to reduce allergic reactions. Regulatory compliance CE marked and compliant with Medical Device Regulation (EU) 2017/745.</p> <p>USFDA registered product (where applicable). It should be Comfort Features like Adjustable neckband for personalized fit and comfort, Gentle contact surface to minimize skin irritation and pressure marks, Velcro-type adjustable fastening on both ends for easy application and removal and Provides firm hold to prevent accidental tube displacement.</p>	10	Per pcs			
97	Polyurethane made Tracheostomy Tube with Cuff and Swivel neck flange	<p>Long-term tracheostomy tube recommended specs for comfort, safety, clinical support, and advanced function. Clinical function: fenestrations, suction aids and speaking valve compatibility support weaning, speech and secretion management. The tracheostomy tube should be made from thermosensitive polyurethane material. The tube size should match the inner diameter of the inner cannula (e.g., for a 7 mm tube size, the inner cannula's inner diameter should also be 7 mm).</p> <p>Additionally, the tube should feature a double swivel curved neck flange, allowing movement in both vertical and horizontal directions to accommodate the patient's head movements. A low-pressure cuff is also required. The tube sizes should be within the range of 4, 5, 6, 7, 8, 9, and 10, without including half sizes. The tube should have a useful life of 29 days/plus and a shelf life of 5 years. CE marked, compliant with EU MDR 2017/745. Manufactured under ISO 13485 quality management standards. USFDA registered medical device</p>	20	Per pcs

105	Single incision GelPoint	Access platform system which facilitate the triangulation of standard instruments through single incision, three 10 mm & one 12 mm low profile sleeves with universal obturator to accommodate 5-12 mm instruments, Incorporates insufflation and smoke evacuation capabilities.Maintains pneumoperitoneum for continuous access and visualization.	3	Per pcs			
106	TAMIS Port small size	Access platform system with channel length of 4 cm to access the rectum and lower sigmoid colon for surgical procedures, three 10 mm & one 12 mm low profile sleeves with universal obturator facilitation of 5mm and 10mm instrument triangulation, and maintenance of pneumorectum throughout the procedure	1	Per pcs			
107	TAMIS Port Medium size	Access platform system with channel length of 5.5 cm to access the rectum and lower sigmoid colon for surgical procedures, three 10 mm & one 12 mm low profile sleeves with universal obturator facilitation of 5mm and 10mm instrument triangulation, and maintenance of pneumorectum throughout the procedure	1	Per pcs			
108	TAMIS Port Large size	Access platform system with channel length of 9 cm to access the rectum and lower sigmoid colon for surgical procedures, three 10 mm & one 12 mm low profile sleeves with universal obturator facilitation of 5mm and 10mm instrument triangulation, and maintenance of pneumorectum throughout the procedure	1	Per pcs			
109	Hand assisted port	Laparoscopic system allows surgeons to rapidly alternate between hand access, straight laparoscopic and open surgical technique to optimize procedural efficiency and clinical outcomes, System which offers unparalleled access for rapid dissection and mobilization of tissue with atraumatic retraction and protection.	2	Per pcs			
110	Laprosopic Grasper with Latis pad	5 mm laprosopic instrument to grasp the tissue with latis pad to minimize the tissue injury. Ergonomic design and low profile design. 360 degree shaft rotation. Available in different sizes ie 35 & 45 cm	3	Per pcs			
111	Suction irrigation with built in smoke evacuation	Suction-Irrigation Disposable Tubing Set with clear, ergonomic handpiece provides a comfortable fit and an unobstructed view of the working channels. Built-in smoke evacuation maintains visibility and eliminates the need for a separate smoke evacuation device.The soft, flexible tubing is resistant to coiling and collapsing.The tubing is DEHP-free and is not made with natural rubber latex.	3	Per pcs			
112	Suction Irrigation reusable probe	Suction-Irrigation reusable probe attachments come with a variety of tip offerings and in several lengths and diameters, enabling a wide range of flow rates to be achieved with a single handpiece.	3	Per pcs			

**GROUP- 18 Miscellaneous Hospital Goods**

Sr. No.	Name of Items	Specifications	Approximate Two Yearly Total Requirement	Unit of Measurement (Per Pcs)	Packing Available	Brand Name	Mfg. Name
113	Insufflation needle	Insufflation Needle with 13-gauge reduces operating room time by establishing pneumoperitoneum at a greater rate than traditional insufflation needles.	5	Per pcs			
114	45 mm vascular curved tip	Disposable Laparoscopic linear cutter 45 mm Vascular reload with Integrated fresh knife and with 360 degree rotation & 0-45 degree articulation in both directions. Staples with 3 rows of progressive staple heights, Safety interlock, Gradual compression on tissue.	20	Per pcs			
115	Staple Reinforced strip	Disposable reinforced strip with 100% SIS Bio absorbable soft tissue reinforced material - 60 mm length	5	Per pcs			
116	Illumination device for open surgery	Sterile, single-use illumination device for open surgery that allows light to be brought to within a few centimetres of the surgical field, in a very simple and convenient way, accessing dark areas that no other alternatives can reach. The device allows the light beam to be concentrated on the surgical field in front of the surgical instruments to focus on the surgeon's immediate field, to illuminate it intensely and very closely and to penetrate poorly illuminated cavities and corners. Up to 5 hours of bright light. Low power consumption. Optimum colour temperature for the chromatic reproduction of organs, vessels and tissues. Minimum weight that does not affect the instrument's grip.	10	Per pcs			
117	Illumination machine	Reusable power generator/source unit for the disposable illumination devices, designed to receive alternating-current (AC) energy from a main electricity power line and deliver one or more regulated direct-current (DC) outputs to supply devices with electrical energy. It typically consists of a step-up or step-down transformer, a rectifier, a filter, and an electronic regulator that keeps the voltage, current, or power output stable over a broad range of loads and input voltages.	2	Per pcs			
118	Nasojejunal feeding tube 16 Fr	Polyurethane or silicone made, 16 Fr Nasojejunal tube, length 150 cm or more, radiopaque, multiple distal side holes, with standard enteral connector, sterile, single use, soft atraumatic tip	300	Per pcs			
119	T lift tissue retractor system	laparoscopic tissue retraction system, having percutaneous cannula (introducer), T lift traction suture, locking clip	10	Per pcs			
120	Medium Pressure VP Shunt (Slit and Spring Valve)	One Unitized Shunt assembly with flushing reservoir, One Ventricular catheter with stylet length 15 cm, One Distal catheter 75 cm long. and three separate straight connectors.	20	Per pcs			
121	Low Pressure VP Shunt (Slit and Spring Valve)	One Unitized Shunt assembly with flushing reservoir, One Ventricular catheter with stylet length 15 cm, One Distal catheter 75 cm long. and three separate straight connectors.	20	Per pcs			
122	Medium Pressure VP Shunt (Dome Valve)	One Unitized Shunt assembly with Dome Valve flushing reservoir, One Distal Part, One Ventricular Part with stylet length and two separate straight connectors.	20	Per pcs			
123	External Ventricular Drainage (EVD)	One Ventricular Catheter made of Radio-Opaque Bacterial Resistant Tubing with stylet, One Trocar, One Butterfly Connector & One External Drainage Kit. (Fluid retaining capacity of PVC connecting tube is approx 13 ml.)	20	Per pcs			
124	OMAYA Reservoir (Large size)	One Ventricular Catheter 15 cm long, One Cerebral Catheter Reservoir of Large size.	20	Per pcs			
125	OMAYA Reservoir (Small size)	One Ventricular Catheter 15 cm long, One Cerebral Catheter Reservoir of Small size.	20	Per pcs			
126	Ultrasonic Scissor Grip Shears Size 9 cm to 11cm	Ultrasonic curved taper tip coagulating shears compatible with ultrasonic cutting and coagulation device, 9cm length, 16mm curved active blade capable of sealing blood vessels up to and including 5mm in diameter, with ergonomic symmetrical finger ring grip compatible with generator GEN11 (HARMONIC) installed in institute. USFDA approved (If needed Additional Generator as a Loaner to be provided by OEM)	5	Per pcs			

GROUP- 18 Miscellaneous Hospital Goods							
Sr. No.	Name of Items	Specifications	Approximate Two Yearly Total Requirement	Unit of Measurement (Per Pcs)	Packing Available	Brand Name	Mfg. Name
127	Ultrasonic Scissor Grip Shears Size 15 to 17CMS	harmonic curved taper tip coagulating shears compatible with ultrasonic cutting and coagulation device,17cm length,16mm curved active blade capable of sealing blood vessels up to and including 5mm in diameter, with ergonomic symmetrical finger ring grip compatible with generator GEN11(HARMONIC) installed in institute.USFDA Approved .(If needed Additional Generator as a Loaner to be provided by OEM )	5	Per pcs			
128	Ultrasonic Blue Handpiece - Open Surgery	Ultrasonic Blue handpiece with tear drop connector that plugs directly into the generator without the need of a connector .USFDA approved	5	Per pcs			
129	Ultrasonic Grey Handpiece - Lap Surgery	Ultrasonic Gray handpiece with tear drop connector that plugs directly into the generator without the need of a connector . USFDA approved .	5	Per pcs			
130	Specimen Retrival Pouch	4"x6" ENDOPOUCH Specimen Retrieval Bag, 224ml.USFDA APPROVED	10	Per pcs			
131	Bipolar cable	bipolar cable , should be comappatible with existing bipolar forceps and bipolar energy device, USFDA or European CE certified	20	Per pcs			
132	surgical skin marker with measuring tap of 15cm	surgical skin marker with measuring tap of 15cm, steriled for surgical site marking	200	Per pcs			
133	Orthopedic under glove	Gamma Sterile 100% Powder free Surgical Gloves with Teal Green In color & must be Hydrasoft Coated with Glycerin & Dimethicone; Hydrasoft technology; Dermashield ;ART & SureFit Technology; Tested for Chemotherapy drugs in accordance with ASTM D6978 Must be Compatible with WHO's Viral Penetration Standards EN 374-5(VIRUS) SIZE-6.0, 6.5, 7, 7.5, 8 , 8.5	200	Per pcs			
134	Orthopedic over glove	Gamma Sterile,100% Powder Free Orthopedic Gloves with Epoxy brown in color; - Cuff Thickness: >0.24 mm, Palm Thickness: > 0.30 mm, Finger Thickness: > 0.30 mm with Textured Fingers & Palm ;Sure-Fit; ART & Dermashield Technology Must be Compatible with WHO's Viral Penetration Standards EN 374-5(VIRUS)- Size 6.5, 7,7.5, 8,8.5	200	Per pcs			
135	Long Knee Brace	Long knee brace for knee immobilization( medium, large and extra large size)	100	Per pcs			
136	Shoulde immobilizer with arm pouch	Shoulder immobilizer with arm pouch( smalll , medium , large, extra large)	50	Per pcs			
137	foot drop splint with derotation boot	foot drop splint with derotation boot	40	Per pcs			
138	cling roll	cling roll(for extremity drapping)	40	Per pcs			
139	Distal Femur Megaprosthesis Fixed Hinge Joint	Titanium/ Stainless steel, sterile ,consists of Tibia Stem , Tibia Component - 55mm, 60mm, 65mm, 70mm Femur Component -Right - 45mm, 50mm Left - 45mm, 50mm ,Intramedullary stem USFDA OR CE CERTIFIED	20	Per pcs			
140	Distal Femur Megaprosthesis Rotating Hinge Joint	Titanium / Stainless Steel ,Sterile , components :Tibia Stem Tibia Component 55mm, 60mm, 65mm, 70mm Femur Component Right - 45mm, 50mm Left - 45mm, 50mm Tibia Insert 55mm, 60mm, 65mm, 70mm ML and Thickness 10mm , Intramedullary stem USFDA OR CE CERTIFIED	20	Per pcs			
141	Proximal Femur Megaprosthesis	Titanium/ Stainless steel, sterile, Components: Half Cup Assembly (Bipolar Cup) 38mm(-3,0,+5), 40mm(-3,0,+5), 42mm(-3,0,+5), 44mm(-3,0,+5), 46mm(-3,0,+5)to 54mm Proximal Femur Component Intramedullary stem, USFDA OR CE CERTIFIED	5	Per pcs			
142	Total Femur Megaprosthesis	Titanium/ Stainless steel, sterile,, Components Half Cup Assembly (Bipolar Cup) 38mm(-3,0,+5), 40mm(-3,0,+5), 42mm(-3,0,+5), 44mm(-3,0,+5), 46mm(-3,0,+5)to 54mm Proximal Femur Component Tibia Stem Tibia Component 55mm, 60mm, 65mm, 70mm Femur Component Right - 45mm, 50mm Left - 45mm, 50mm Tibia Insert 55mm, 60mm, 65mm, 70mm ML and Thickness 10mm Intramedullary stem, USFDA OR CE CERTIFIED	5	Per pcs			
143	Compression Device Megaprosthesis	Titanium/ Stainless steel, sterile,, components: Uncmeneted stem: Compression Pins Tibia Stem Tibia Component 55mm, 60mm, 65mm, 70mm Femur Component Right - 45mm, 50mm Left - 45mm, 50mm Intramedullary stem , USFDA OR CE CERTIFIED	5	Per pcs
