Cement required for the construction, erection works shall be procured by the Contractor.

The cement to be used shall be grade 53 and out of following brands only.

FOR ESR & UGSR WORKS

1. Ultratech.
2. Ambuja.
3. Sanghi.
4. J.K.Laxmi

FOR OTHER WORKS

1. Ultratech.
2. Ambuja.
3. Sanghi
4. J.K. Laxmi
5. Hathi
6. Siddhi
7. J.K.Cement

(e) **Steel :**

All TMT (Fe-500) shall be procured by the contractor.

The reinforcement steel bars shall be only following makes :

FOR ESR & UGSR WORKS

1. SAIL
2. TATA
3. Ispat (RINL) VIZAG.
4. JSW Steel Ltd.

FOR OTHER WORKS

9. Pollad TMT Steel
10. Metaroll (Std.No. 643/2017, Dt. 04/05/2017)

(f) **MS pipes**

Length:

The pipes shall be supplied in single random length from 6 meters to 12 meters as required by S.M.C. However tolerance in length shall be $\pm 5\%$ of the random length. The pipe supplied in length other than specified length without prior approval of Engineer in charge shall not be entitled for the payment. The payment shall be done on Rmt. basis only.

Note: Above Equipments / items / Products are indicative. The Product / Make shall have to pre-approve from the Engineer-in-charge prior to Execution / Procurement. The decision of the Engineer-in-charge shall be final and binding to the contractor.

Contractor will have to produce Bill / T.C. in the name of said Project / Contactor from respected Steel Company, time to time and as asked by the Engineer-in-charge.

Structure steel required for construction, erection and other allied job, shall be procured by the Contractor at his own cost.

7. LABOUR AND SUPERVISORY CAMPS

No land will be provided by the SMC to the Contractor for constructing his labour and supervisory camps and other service facility. Contractor shall make his own arrangements outside the site boundary.

8. CONSTRUCTION EQUIPMENTS:

The Contractor shall make his own arrangements to procure all constructional plant equipments on his own. He shall also state the type and number of different equipments with their capacities in good working conditions which he will use on the site to ensure completion of the work in the specified time. All materials, construction plants and equipments once brought by the Contractor to sit are not to be removed from there without the written authority of the Engineer-in-charge. Also, the Contractor shall have adequate stock of spare parts for the equipment on the site and work shall not be delayed on this account. Similarly all temporary works built by the Contractor for the main construction undertaken by him, are not to be dismantled and removed without the written authority of the Engineer-in-charge.

9. CO-OPERATION WITH OTHER CONTRACTORS:

The Contractor shall execute his work in phased manner as directed by the Engineer from time to time so as not to obstruct or retard the work being executed simultaneously by other agencies.

10 SAFETY:

The Contractor shall be responsible for provision of safety arrangement and protective clothing for all operators on the site whether or not engaged in actual operation of supervision. The Contractor shall also be responsible for safety arrangements of all equipment used for construction and shall employ trained workmen conversant with safety regulation. The Contractor shall use only tested equipment and tools and shall periodically renew tests to the satisfaction of the Engineer. All test certificate shall be made available to the Engineer at the site of the work. If at any time, in the opinion of the Engineer, this provision is not in completion with the Contractor he shall forthwith replace such equipment and tools.

The Contractor shall display notices and arrange proper fencing at such places where hazardous work is being carried out. The Contractor shall provide at his own expense on the works to the satisfaction of the Engineer at such places, proper and sufficient fire fighting, first aid appliances etc. which shall at all times be available for use.

- 11 The Contractor shall have to take photographs during various stages of construction activity for each of the work at no extra cost. The photograph shall be of size 4" x 6" on mat paper. The number of photographs shall not be less than 160.

- 12 No mobilization advance will be paid.

- 13 Extra item of work shall not vitiate the contract. The Contractor shall be bound to execute extra items of work as directed by the Engineer-in-charge. The rate for extra item shall be derived from the **S.O.R. (R&B Division Surat) of year 2023-2024/GWSSB- SOR year 2022-23** and quoted premium of the tender. If the rate of the extra item is not available in S.O.R. then it will be derived

on prevailing market rates. However, the decision of the Engineer-in-charge shall be final and binding to the Contractor. No quoted premium of the tender will be paid on market rates.

- 14 It is further to clarify that, the security deposit deducted from each running bill will be released after the completion of defect liability period. The security deposit remitted by the Contractor will be released after the payment of the final bill.
- 15 No compensation of any item shall be paid in case any of the item is omitted i.e. not executed at all.
- 16 It is to clarify once again that, the serviceable materials obtained during dismantling / clearing of the site shall have to be carted by the Contractor at the places shown by the Engineer-in-charge any where within city limit.
- 17 Out of the amount payable / creditable to Contractor's account, the Central Government / State Government tax / taxes shall be deducted at source in accordance with the relevant laws / rules prevailing from time to time.
- 18 Surat Municipal Corporation shall not provide "C" for tax purpose.
- 19 **"The Contractor shall depute technical person/personnel having adequate experience of same kind of work to whom contractor may rely upon him / them as it the sole responsibility of the contractor regarding the quality and safety executed work. Details about these personnel shall be submitted along with the tender in the format prescribed by The Surat Municipal Corporation in this tender."**
- 20 Supervision of the work shall be done by The Surat Municipal Corporation. It may / may not appoint a person or a firm/consultant as a PMC (Project Management Consultant) and or TPI (Third Party Inspection) for day to day close supervision at above work site. Contractor shall have to provide every assistance to them and shall have to obey and implement the instruction received from the person or a person of a firm/consultant, appointed by Surat Municipal Corporation. Contractor shall not have any objections in this context.
- 21 The Contractor shall prepare and submit report of daily activities in a Performa, which shall be approved by Engineer-in-charge before start of work. The daily report shall specifically include details like items executed with respective quantities, materials received on site, materials consumed, etc. In general the Performa and details to be provided in daily report shall contain all necessary information as required by the Engineer-in-charge. During execution of work the Performa shall be modified, if desired by the Engineer-in-charge to accommodate relevant necessary details about daily activities.
- 22 If cement is required to be used in quantity of less than 50 kg. (i.e. less than one full bag e.g. 25 kg), the same shall be weighed and packed in advance and then only it shall be used in concrete work.
- 23 The Contractor shall construct and provide totally watertight godown building for storage of cement. The sidewalls of godown shall have minimum 230 mm thick brick masonry walls plastered on both faces. The roof can be either of leak proof reinforced concrete slab or adequately sloped watertight galvanized / asbestos sheets. Windows / doors shall be normally kept tightly shut to prevent moisture / rain water from entering into the godown. Height of plinth shall be at least 600 mm above natural ground level and such that it permits convenient loading / unloading operations from truck. The floor of the godown shall be at least 150 mm thick densely compacted concrete slab on rubble soling with proper line, level and slope.

Wooden planks or sleepers covered with plastic sheets shall be kept on the floor and the cement bags stored on top of it. Bags shall not be stored more than 10 bags high. Bags shall be stored at least 300 mm away from the walls. Exhaust fans shall be installed on blank walls to improve ventilations. Necessary lighting and heating arrangement shall be installed on walls at suitable locations. Stacking of bags shall be such that it can be easily counted and permits movement of personnel for the purpose. The godown shall have lock with two sets of keys. One set of keys shall always remain with the Engineer-in-charge, without whose permission addition, removal or any change in stack of bags stored shall not be allowed.

- 24 “The contractor shall have to keep the record of the labourers employed for the concerned work. The contractor should provide attendance card, identification card, pay slip etc to the labourers employed. Further, the amount of E.S.I. and Provident Fund should be deducted from the salary of the labourers employed and such amount should invariably be deposited to the concerned Government Departments. In addition, the amount of social security under E.P.F. and M.P. act 1952 shall be recovered every month and such amount should invariably be deposited directly to the concern Government Departments. In the same context, the details regarding such amount deposited to the concern Govt. Dept. and labourers employed shall be furnished to the office of Hydraulic Department of S.M.C. every month. In case of failure, such amount shall be deducted / recovered from the running bill directly in accordance with the details given by contractor regarding labourers employed and as per the prevailing rules of Government. In absence of detail, an ad-hoc suitable amount of the total amount of work done shall be recovered directly from the running bills. On submission of evidence of recovery of such amount, the amount recovered /deducted shall be released in the next bill after due sanction of Competent Authority of S.M.C.”

25 WASTAGE OF CEMENT & REINFORCEMENT.

The weight of reinforcement shall be computed on the basis of the length of the steel used in the work multiplied by the standard unit weight of TMT Fe-500 bar as mentioned in IS code No.1786.

Based on standard theoretical total consumption, penalty shall be levied as below against variation for actual consumption.

CEMENT:

- (a) No penalty, if actual total consumption matches with standard theoretical total consumption.
- (b) Further there will be no penalty for variation up to + (Plus) or - (Minus) 5% in actual total consumption against standard theoretical total consumption.
- (c) Rs. 10,400/- (Without GST) per M.T. for variation beyond + (Plus) or - (Minus) 5% in actual total consumption against standard theoretical total consumption.

REINFORCEMENT STEEL:

- (a) No penalty if actual total consumption matches with standard theoretical total consumption.
- (b) Further there will be no penalty for variation up to + (Plus) or - (Minus) 7.5% in actual total consumption against standard theoretical total consumption.
- (c) Rs.1,04,000/- (Without GST) per M.T. for variation beyond + (Plus) or - (Minus) 7.5% i.e. actual total consumption against standard theoretical total consumption.

- 26 Concreting should be done with automatic digital way batch mixing machine having capacity of 8 C.M./Hr. with necessary required accessories and equipments.

27. If any service tax levied by the Government during the course of execution of this contract shall be borne separately by S.M.C, provided the original receipt / proof for the amounts actually remitted by the successful bidder to the competent authority be submitted with in 30 (Thirty) days from the date of payment. Thereafter, S.M.C shall not be held responsible for any such dues/payments, not paid by the contractor. In short, the contractor shall be sole responsible for the payment of the service tax, if any, applicable during the course of execution of this contract. S.M.C will not entertain any claim regarding service tax later on.
28. Any tests mentioned in the tender or else suggested by any consultant/consultants i.e. (PMC) Project Management Consultant and or (TPI) Third Party Inspection shall be conducted, managed by the contractor along with the representative of the Surat Municipal Corporation, at his/their own cost. Moreover, contractor's duly authorized representative shall remain present with them at the time/place of sampling and testing.
29. Interest of any kind what so ever shall never be paid/ entertained in any case including delayed payment of Running bill or final bill or any such or all dues with Surat Municipal Corporation.
30. The approved brands/makes mentioned in the tender for the Cement and Reinforcement steel has been unchanged. However, in case of non availability of Cement / Reinforcement steel from the approved manufacturers, any brand used either in the world bank promoted projects or purchased by the Central Stores of the Surat Municipal Corporation may be allowed to be used, after written application by the contractor & consequent prior approval from the Engineer-in Charge.
31. Mix design for the required grade of concrete and of selected brand/make of cement shall have to be pre-approved from the consultant/Engineer in charge, prior to execution.
32. If the document (either original / attested copy) attached with this tender are found false or misleading then the EMD will be forfeited, more over such bidders are liable for debarred or even black listed from this corporation.
33. The contractor should have to prepare all the drawings / designs for all the temporary structures / staging / scaffolding / shuttering etc. Such details may have to be prepared by any renowned/reputed consultant as may be decided by the contractor.
34. The Contractor shall have to prepare and display the board (on site or at required interval when the work is not in define area) showing details, specifications of work and Name, Address, Phone no. & Fax no. of concern Executive Engineer at his own expenses. If the contractor fails to do same or till he doesn't inform the concern Executive Engineer with photographs of Boards, 0.25% to 1.00% of Tender Amount will be retained with Surat Municipal Corporation.
35. All the applicant contractors are required to have their own employers code number under EPF Act, 1952 and are required to comply the applicable provisions of said statute regularly and totally.
36. Further the contractors for services are required to produce the certified copies of paid challans in respect of employees/workers employed by said contractor in respect of work allotted by Surat Municipal Corporation, along with copies of Pay Roll and Muster Roll. If the same are not produced, the bills will not be released.
37. The Contractor shall have to start all the work simultaneously.
38. **Responsibility of Contractor under Construction and Demolition Waste (C & D Waste) rules 2016.**
 - Contractor shall remove all Construction and Demolition Waste (C & D Waste) and clean the area every day, or depending upon (1) The Type & schedule of the work, (2) The quantity and type of waste generated appropriate storage and collection facility shall be

developed at site. Reasonable timeframe shall be worked out in consultation with engineer in charge of the project, for storage & usage of C & D waste.

- If it's found that contractor is irregular and showing negligence to management of C & D waste, then If deem fit, Engineer in charge would arrange to dispose the said C & D Waste through an Authorized C & D Waste Contractor/agency of Surat Municipal Corporation and All the expenditure made towards disposal of this C & D Waste shall be recovered from the contractor as per the prevailing charges.

8.0 QUALITY ASSURANCE PLAN

The Contractor shall strictly follow the Quality Assurance Plan, in order to ensure good quality of materials and works. All tests, etc. which are mentioned in the Quality Assurance Plan, shall be in addition to manufacturer's test certificates.

For all field tests, the Contractor will set up a field laboratory on site. It shall have all equipments necessary to carry out requisite field tests in confirmation to relevant IS codes of practice. The Contractor shall get approved the setup of field laboratory, persons responsible for field testing, equipments to be used for field testing, reporting format for field tests, etc. with the Engineer-in-charge within 15 days from the date of work order. All field tests shall be performed on site in presence of the Engineer-in-charge. Reports for the field tests shall be submitted on the same day to the Engineer-in-charge. All reports of the manufacturer's test, field test, laboratory test, etc. shall be property of the SURAT MUNICIPAL CORPORATION

The frequency of sampling shall be as given in the table. The frequency and number of samples to be tested mentioned herein are minimum. The Engineer-in-charge may ask the Contractor for more samples to be tested. If the frequency of sampling and number of samples required to be tested, as specified in technical specifications / relevant IS code of practice is more than those mentioned herein, the guideline mentioned in technical specifications / relevant IS codes of practice shall be followed. The method of sampling, size of sample, method of testing and all testing equipments shall conform to relevant IS codes of practice. The identification of various IS codes for confirmation of test method are mentioned only for general guideline to the Contractor. This does not restrict application of other relevant / applicable IS codes for the test under reference. All expenses for field tests, required setup on site, equipments for field – testing, reporting formats, laboratory tests, etc. shall be borne by the Contractor. Execution of any item of works shall start only after submission of required manufacturer's test certificates, field test reports and laboratory test reports for relevant materials / item of work, provided they are in confirmation with detailed technical specifications of the tender and requirements of relevant / applicable IS codes of practice. In no case delay in execution due to non-availability of test report shall become cause for any claim or extra payment to the Contractor.
