3. **Tender Form:** Tender Forms shall embody the contents of the contract documents either directly or by reference and shall be as per specimen form, Annexure-I. e-Tender Forms shall be issued free of cost to all tenderers.
4. **Omissions & Discrepancies:** Should a tenderer find discrepancies in or omissions from the drawings or any of the Tender Forms or should she/he be in doubt as to their meaning, she/he should at once notify the authority inviting tenders. The tender inviting authority may, if deemed necessary, clarify the same to all tenderers. It shall be understood that every endeavor has been made to avoid any error which can materially affect the basis of tender and successful tenderer shall take upon herself/himself and provide for the risk of any error which may subsequently be discovered and shall make no subsequent claim on account thereof.
5. **Bid Security:**
(1) (a) The tenderer shall be required to submit the Bid Security with the tender for the due performance with the stipulation to keep the offer open till such date as specified in the tender, under the conditions of tender. The Bid Security shall be as under:

Value of the Work	Bid Security
For all works	2% of the estimated cost of the work
As per ACS 11 of dated 13/03/2026	

Note:

- (i) The Bid Security shall be rounded off to the nearest ₹ 100. This Bid Security shall be applicable for all modes of tendering.
- (ii) Any firm recognized by Department of Industrial Policy and Promotion (DIPP) as 'Start ups' shall be exempted from payment of Bid Security detailed above.
- (iii) Labour Cooperative Societies shall submit only 50% of above Bid Security detailed above.
- (b) It shall be understood that the tender documents have been issued to the tenderer and the tenderer is permitted to tender in consideration of stipulation on his part, that after submitting his tender he will not resile from his offer or modify the terms and conditions thereof in a manner not acceptable to the Engineer. Should the tenderer fail to observe or comply with the said stipulation, the aforesaid amount shall be liable to be forfeited to the Railway.
- (c) If his tender is accepted this Bid Security mentioned in sub clause (a) above will be retained as part security for the due and faithful fulfilment of the contract in terms of Clause 16 of the Standard General Conditions of Contract. The Bid Security of other Tenderers shall, save as
herein
before

provided, be returned to them, but the Railway shall not be responsible for any loss or depreciation that may happen thereto while in their possession, nor be liable to pay interest thereon.

- (2) The Bid Security shall be deposited either in cash through e-payment gateway or submitted as Bank Guarantee bond from a scheduled commercial bank of India or as mentioned in tender documents. The Bank Guarantee bond shall be as per Annexure VIA and shall be valid for a period of 90days beyond the bid validity period.  - ii. The original Bank Guarantee should be delivered in person to the official nominated as indicated in the tender document before closing date for submission of bids (i.e. excluding the last date of submission of bids).
 - iii. Non submission of scanned copy of Bank Guarantee with the bid on e-tendering portal (IREPS) and/or non submission of original Bank Guarantee within the specified period shall lead to summary rejection of bid.
 - iv. The Tender Security shall remain valid for a period of 90 days beyond the validity period for the Tender.
 - v. The details of the BG, physically submitted should match with the details available in the scanned copy and the data entered during bid submission time, failing which the bid will be rejected
 - vi. The Bank Guarantee shall be placed in an envelope, which shall be sealed. The envelope shall clearly bear the identification “Bid for the ***** Project” and shall clearly indicate the name and address of the Bidder. In addition, the Bid Due Date should be indicated on the right hand top corner of the envelope.
 - vii. The envelope shall be addressed to the officer and address as mentioned in the tender document.
 - viii. If the envelope is not sealed and marked as instructed above, the Railway assumes no responsibility for the misplacement or premature opening of the contents of the Bid submitted and consequent losses, if any, suffered by the Bidder.

6. Care in Submission of Tenders:

- (a) (i) Before submitting a tender, the tenderer will be deemed to have satisfied himself by actual inspection of the site and locality of the works, that all conditions liable to be encountered during the execution of the works are taken into account and that the rates he enters in the tender forms are adequate and all inclusive to accord with the provisions in Clause-37 of the Standard General Conditions of Contract for the completion of works to the entire satisfaction of the Engineer.
- (a)(ii) Tenderers will examine the various provisions of The Central Goods and Services Tax Act, 2017(CGST)/ Integrated Goods and Services Tax Act, 2017(IGST)/ Union Territory Goods and Services Tax Act, 2017(UTGST)/ respective state's State Goods and Services Tax Act (SGST) also, as notified by Central/State Govt. & as amended from time to time and applicable taxes before bidding. Tenderers will ensure that full benefit of Input Tax Credit (ITC) likely to be availed by them is duly considered while quoting rates

- (a)(iii) The successful tenderer who is liable to be registered under CGST/IGST/UTGST/SGST Act shall submit GSTIN along with other details required under CGST/IGST/UTGST/SGST Act to railway immediately after the award of contract, without which no payment shall be released to the Contractor. The Contractor shall be responsible for deposition of applicable GST to the concerned authority.
- (a)(iv) In case the successful tenderer is not liable to be registered under CGST/IGST/UTGST/SGST Act, the railway shall deduct the applicable GST from his/their bills under reverse charge mechanism (RCM) and deposit the same to the concerned authority.
- 6(a)(v) Contractor shall be liable to pay/refund the amount collected as GST to the Indian Railways along with interest and penalties, if any imposed by the authorities, in case GST input tax credit of Indian Railways is denied/rejected by the tax authorities due to reasons mentioned below but not limited to: Wrong/incorrect invoices issued by Contractor; No-filing of GST returns; Non-payment of GST collected from Indian Railways to the authorities; Any other non-compliance done by Contractor; General Indemnity: Contractor hereby agrees to indemnify and hold harmless the Indian Railways from and against any and all losses, including loss on account of Input Tax Credit and all losses incurred by the Indian Railways relating to or arising out of or in connection with any actual or threatened claim, legal action, proceedings, prosecution or inquiry by or against the Indian Railways arising out, directly or indirectly, of failure by the contractor to comply with the provisions of GST and related laws, or based upon or arising from any failure by the Contractor. Retention Money: Any payment liable to be paid by Indian Railways to contractor against the goods or services or both supplied by such contractor to Indian Railways shall be kept on hold in case supplier makes any non-compliance of any of the GST law provisions including non-reporting of invoices in GST returns. Such payment shall be released after proper verification of records and availability of ITC to Indian Railways as per provisions of GST Law.
- (b) When work is tendered for by a firm or company, the tender shall be signed by the individual legally authorized to enter into commitments on their behalf.
- (c) The Railway will not be bound by any power of attorney granted by the tenderer or by changes in the composition of the firm made subsequent to the execution of the contract. It may, however, recognize such power of attorney and changes after obtaining proper legal advice, the cost of which will be chargeable to the Contractor.
- 6.1 The tenderers shall submit a copy of **certificate** stating that all their statements/documents submitted along with bid are true and factual. If a sole proprietor expires after the submission of tender or after the acceptance of tender, the Railway shall deem such tender as cancelled / contract as terminated under clause 61 of the Standard General Conditions of Contract.

10. Eligibility Criteria:

10.1 Technical Eligibility Criteria:

- (a) (a) The tenderer must have successfully completed or substantially completed any one of the following categories of work(s) during last 07 (seven) years, ending last day of month previous to the one in which tender is invited:

Three similar works each costing not less than the amount equal to 30% of advertised value of the tender, or

Two similar works each costing not less than the amount equal to 40% of advertised value of the tender, or

One similar work each costing not less than the amount equal to 60% of advertised value of the tender.

- (b) (b) (i) In case of tenders for composite works (e.g. works involving more than one distinct component, such as Civil Engineering works, S&T works, Electrical works, OHE works etc. and in the case of major bridges – substructure, superstructure etc.), tenderer must have successfully completed or substantially completed any one of the following categories of work(s) during last 07 (seven) years, ending last day of month previous to the one in which tender is invited:

Three similar works each costing not less than the amount equal to 30% of advertised value of each component of tender, or

Two similar works each costing not less than the amount equal to 40% of advertised value of each component of tender, or

One similar work each costing not less than the amount equal to 60% of advertised value of each component of tender.

Note: for b (i) separate completed works of minimum required values shall also be considered for fulfilment of technical eligibility criteria for different components.

- (b)(ii) In such cases, what constitutes a component in a composite work shall be clearly pre-defined with estimated tender cost of it, as part of the tender documents without any ambiguity.
- (b) (iii) To evaluate the technical eligibility of tenderer, only components of work as stipulated in tender documents for evaluation of technical eligibility, shall be considered. The scope of work covered in other remaining components shall be either executed by tenderer himself if he has work experience as mentioned in clause 7 of the Standard General Conditions of Contract or through subcontractor fulfilling the requirements as per clause 7 of the Standard General Conditions of Contract or jointly i.e., partly himself and remaining through subcontractor, with prior approval of Chief Engineer in writing.

However, if required in tender documents by way of Special Conditions, a formal agreement duly notarized, legally enforceable in the court of law, shall be executed by the main contractor with the subcontractor for the component(s) of work proposed to be executed by the subcontractor(s), and shall be submitted along with the offer for considering subletting of that scope of work towards fulfillment of technical eligibility. Such subcontractor must fulfill technical eligibility criteria as follows: The subcontractor shall have successfully completed at least one work

similar to work proposed for subcontract, costing not less than 35% value of work to be subletted, in last 5 years, ending last day of month previous to the one in which tender is invited through a works contract. Note: for subletting of work costing up to Rs 50 lakh, no previous work experience of subcontractor shall be asked for by the Railway

In case after award of contract or during execution of work it becomes necessary for contractor to change subcontractor, the same shall be done with subcontractor(s) fulfilling the requirements as per clause 7 of the Standard General Conditions of Contract, with prior approval of Chief Engineer in writing.

Note for Item 10.1:

Work experience certificate from private individual shall not be considered. However, in addition to work experience certificates issued by any Govt. organization, work experience certificate issued by Public listed company having average annual turnover of Rs 500 crore and above in last 3 financial years excluding the current financial year, listed on National Stock Exchange or Bombay StockExchange, incorporated/registered at least 5 years prior to the date of closing of tender, shall also be considered provided the work experience certificate has been issued by a person authorized by the Public listed company to issue such certificates.

In case tenderer submits work experience certificate issued by public listed company, the tenderer shall also submit along with work experience certificate, the relevant copy of work order, bill of quantities, bill wise details of payment received duly certified by Chartered Accountant, TDS certificates for all payments received and copy of final/last bill paid by company in support of above work experience certificate.

10.2. Financial Eligibility Criteria: The tenderer must have minimum average annual contractual turnover of V/N or ' V ' whichever less; where

V = Advertised value of the tender in crores of Rupees

N = Number of years prescribed for completion of work for which bids have been invited.

The average annual contractual turnover shall be calculated as an average of "total contractual payments" in the previous three financial years, as per the audited balance sheet. However, in case balance sheet of the previous year is yet to be prepared/ audited, the audited balance sheet of the fourth previous year shall be considered for calculating average annual contractual turnover. The tenderers shall submit requisite information as per Annexure-VIB, along with copies of Audited Balance Sheets duly certified by the Chartered Accountant/ Certificate from Chartered Accountant duly supported by Audited Balance Sheet.

10.3. Bid Capacity: The tender/technical bid will be evaluated based on bid capacity formula detailed as Annexure-VI.

10.4 No Technical and Financial credentials are required for tenders having advertised value up to Rs 50 lakh.

10.5 Credentials if submitted in foreign currency shall be converted into Indian currency i.e., Indian Rupee as under:

The conversion rate of US Dollars into Rupees shall be the daily representative exchange rates published by the Reserve Bank of India or entity authorized by RBI to do so for the relevant date or immediately previous date for which rates have been published. Where, relevant date shall be as on the last day of month previous to the one in which tender is invited. In case of any other currency, the same shall first be converted to US Dollars as on the last day of month previous to the one in which tender is invited, and the amount so derived in US Dollars shall be converted into Rupees at the aforesaid rate. The conversion rate of such currencies shall be the daily representative exchange rates published by the International Monetary Fund for the relevant date or immediately previous date for which rates have been published.

[Explanation for clause 10 including clause 10.1 to 10.5 - Eligibility Criteria:]

1. Substantially Completed Work means an ongoing work in which payment equal to or more than 90% of the present contract value (excluding the payment made for adjustment of Price variation (PVC), if any) has been made to the contractor in that ongoing contract and no proceedings of termination of contract on Contractor's default has been initiated. The credential certificate in this regard should have been issued not prior to 60 days of date of invitation of present tender.
2. *In case a work is started prior to 07 (seven) years, ending last day of month previous to the one in which tender is invited, but completed in last 07 (seven) years, ending last day of month previous to the one in which tender is invited, the completed work shall be considered for fulfilment of credentials.*
3. *If a work is physically completed and completion certificate to this extent is issued by the concerned organization but final bill is pending, such work shall be considered for fulfilment of credentials.*
4. In case of completed work, the value of final bill (gross amount) including the PVC amount (if paid) shall be considered as the completion cost of work. In case final bill is pending, only the total gross amount already paid including the PVC amount (if paid) shall be considered as the completion cost of work.

In case of substantially completed work, the total gross amount already paid including the PVC amount (if paid), as mentioned in the certificate, shall be considered as the cost of substantially completed work.
5. *If a part or a component of work is completed but the overall scope of contract is not completed, this work shall not be considered for fulfilment of technical credentials even if the cost of part completed work/component is more than required for fulfilment of credentials.*

6. *In case a work is considered similar in nature for fulfilment of technical credentials, the overall cost including the PVC amount (if paid) of that completed work or substantially completed work, shall be considered and no separate evaluation for each component of that work shall be made to decide eligibility.*
7. *The value of final bill including PVC amount-if paid, or otherwise in case final bill is pending the contract cost in last approved variation statement plus PVC amount paid or cumulative amount paid up to last on-account bill including PVC amount and statutory deductions whichever is less, shall be considered as the completion cost of work.*
8. *In case of newly formed partnership firm, the credentials of individual partners from previous propriety firm(s) or dissolved previous partnership firm(s) or split previous partnership firm(s), shall be considered only to the extent of their share in previous entity on the date of dissolution / split and their share in newly formed partnership firm. For example, a partner A had 30% share in previous entity and his share in present partnership firm is 20%. In the present tender under consideration, the credentials of partner A will be considered to the extent of $0.3 \times 0.2 \times \text{value of the work done in the previous entity}$. For this purpose, the tenderer shall submit along with his bid all the relevant documents which include copy of previous partnership deed(s), dissolution deed(s) and proof of surrender of PAN No.(s) in case of dissolution of partnership firm(s) etc.*

For tenders having advertised value more than **Rs 10 crore** wherein eligibility criteria includes bid capacity also, the tenderer will be qualified only if its available bid capacity is equal to or more than the total bid value of the present tender. The available bid capacity shall be calculated as under: Available Bid Capacity = $[A \times N \times 2] - 0.33 \times N \times B$

Where

A = Maximum value of construction works executed and payment received in any one of the previous three financial years or the current financial year (up to date of inviting tender), taking into account the completed as well as works in progress.

N= Number of years prescribed for completion of work for which bids has been invited.

B = Existing commitments and balance amount of ongoing works with the tenderer as per the prescribed proforma of Railway for statement of all works in progress and also the work which are awarded to tenderer but yet not started upto the date of inviting of tender.

Note:

- (a) The Tenderer(s) shall furnish the details of –
 - (i) Maximum value of construction works executed and payment received in any one of the previous three financial years or the current financial year (up to date of inviting tender) for calculating A, and
 - (ii) Existing commitments and balance amount of ongoing works with tenderer as per the prescribed proforma of Railway for statement of all works in progress and also the works which are awarded to tenderer but yet not started upto the date of inviting of tender for calculating B. In case of no works in hand, a 'NIL' statement should be furnished. The submitted details for (i) and (ii) above should be duly verified by Chartered Accountant.
- (b) In case if a bidder is JV, the tenderer(s) must furnish the details of
 - (i) Maximum value of construction works executed and payment received in any one of the previous three financial years or the current financial year (up to date of inviting tender) by each member of JV for calculating A, and
 - (ii) Existing commitments and balance amount of ongoing works with each member of JV either in individual capacity or as a member of other JV as per the prescribed proforma of Railway for statement of all works in progress and also the works which are awarded to each member of JV either in individual capacity or as a member of other JV but yet not started upto the date of inviting of tender for calculating B. In case of no works in hand, a 'NIL' statement should be furnished. The submitted details for (i) and (ii) above should be duly verified by Chartered Accountant.

- (c) Value of a completed work/work in progress/work awarded but yet not started for a Member in an earlier JV shall be reckoned only to the extent of the concerned member's share in that JV for the purpose of satisfying his/her compliance to the above mentioned bid capacity in the tender under consideration.
- (d) The arithmetic sum of individual “bid capacity” of all the members shall be taken as JV’s “bid capacity”.
- (e) In case, the tenderer/s failed to submit the above statement along with offer, their/her/his offer shall be considered as incomplete and **will be rejected summarily.**
- (f) The available bid capacity of tenderer shall be assessed based on the details submitted by the tenderer. In case, the available Bid Capacity is lesser than estimated cost of work put to tender, her/his offer shall not be considered even if she/ he has been found eligible in other eligibility criteria/tender requirement.

- (i) For all the tenders having advertised cost of Rs. 10 lakh or above, the contractor shall have the option to take payment from Railways through a letter of credit (LC) arrangement.
- (ii) This option of taking payment through LC arrangement has to be exercised in IREPS (Indian Railway Electronic procurement System - the e-application on which tenders are called by Railways) by the tenderer at the time of bidding itself, and the tenderer shall affirm having read over and agreed to the terms and conditions of the LC option.
- (iii) The option so exercised, shall be an integral part of the bidder's offer.

- (iv) The above option of taking payment through LC arrangement, once exercised by tenderer at the time of bidding, shall be final and no change shall be permitted, thereafter, during execution of contract.
- (v) In case tenderer opts for payment through LC following shall be the procedure to deal release of payment through LC:
 - (a) The LC shall be a sight LC,
 - (b) The contractor shall select his Advising/Negotiating bank for LC. The incidental cost towards issue of LC and its operation thereof shall be borne by the contractor.
 - (c) SBI, New Delhi, Main Branch will be the nodal branch for issue of LCs based on online requests received from Railway Accounts Units for tenders opened. SBI branches where the respective Railway Accounts Office has its Account (local SBI branch) will be the issuance/ reimbursing branches for LC issued under this arrangement. The Bank shall remain same for this tender till completion of contract. The incidental cost @ 0.15% per annum of LC value, towards issue of LC and operation thereof shall be borne by the contractor and shall be recovered from his bills.
 - (d) The LC shall be opened initially for duration of 180 to 365 days in consultation with contractor. The LC shall be extended time to time as per the progress of the contract, on the request of the contractor. The value of LC to be opened initially as well as extended thereafter shall be finalized by the engineer in consultation with the contractor on the basis of expected progress of work.

- (e) The LC terms and conditions shall inter-alia indemnify and save harmless the Railway from and against all losses, claims and demands of every nature and description brought or recovered against the Railway by reason of any act or omission of the contractor, his agents or employees, in relation to the Letter of Credit (LC). All sums payable/borne by Railways on this account shall be considered as reasonable compensation and paid by contractor.
 - (f) The LC terms and conditions shall inter-alia provide that Railways will issue a Document of Authorization (format enclosed as *Annexure-‘06’*) after passing the bill for completed work, to enable contractor to claim the authorized amount from their bank.
 - (g) The acceptable, agreed upon document for payments to be released under the LC shall be the Document of Authorization.
 - (h) The Document of Authorization shall be issued by Railway Accounts Office against each bill passed by Railway.
 - (i) On issuance of Document of Authorization, a copy of Document of Authorization shall be posted on IREPS for download by the contractor. A digitally signed copy of Document of Authorization shall also be sent by Railway Accounts Office to Railway’s bank (Local SBI Branch).
 - (j) The contractor shall take print out of the Document of Authorization available on IREPS and present his claim to his bank (advising Bank) for necessary payments as per LC terms and conditions. The claim shall comprise of copy of Document of Authorization, Bill of Exchange and Bill.
 - (k) The payment against LC shall be subject to verification from Railway’s Bank (Local SBI Branch).
 - (l) The contractor’s bank (advising bank) shall submit the documents to the Railway’s Bank (Local SBI Branch).
 - (m) The railway’s bank (issuing bank) shall, after verifying the claim so received with reference to the digitally signed Document of Authorization received from Railway Accounts Office, release the payment to contractor’s bank (advising bank) for crediting the same to contractor’s account.
 - (n) Any number of bills can be dealt within one LC, provided the sum total of payments to contractor is within the amount for which LC has been opened.
 - (o) The LC shall be closed after the release of final payment including PVC amount, if any to the contractor.
 - (p) The release of performance guarantee or security deposit shall be dealt directly by railway with the contractor i.e., not through LC.
- (B)** For opening of LC, executive department shall make a request letter to concerned Accounts Department on a format, placed as *Annexure-‘05’*.
10. **Accident/natural calamities:** Vehicles and equipments of the contractor can be drafted/used by Railway in case of accidents/natural calamities involving human lives. Contractor is entitled payment for the same as per clause 39 of the General Conditions of the Contract.

The methodology in detail for execution of the work at site shall be approved by engineering in charge of the organization executing the work and copies of the same shall be available with contractor's supervisor, railway supervisor, SSE/Pway/SSE (Works)/ADEN/DEN/Sr. DEN of the section in whose jurisdiction the work falls.
3. Before permitting the execution of certain works like earthwork in formation, bridge work, supply of ballast, transportation of rails, sleepers and other material, track linking, platform/any other civil work close to the running track etc. for new/existing rail lines, gauge conversion, doubling, traffic facility work, ROB/RUB open lines engineer-in-charge (ADEN/DEN/Sr. DEN) of the section shall ensure that he receives the prior intimation /confirmation of the following aspects from Assistant Engineer/Assistant officer incharge of the work of the executing agency i.e. construction, S & T, Electrical, Mechanical, Rail Tel, RVNL etc.
 - a. Name and address of the contract assigned to execute the work
 - b. Name of the contractor's supervisor
 - c. Name of the supervisor/assistant engineer/assistant officer of the construction organization/other organizations who are going to be site incharge/incharges of work site.
 - d. list of the number (s) of individual vehicle (s) /machineries, names and license particulars of the driver (s) proposed to be used by contractor.
 - e. Information regarding location, duration and timings during which the vehicles/machinery are planned to be plied/worked.
 - f. The supervisors and operators of the contractor proposed to be deployed at work site, which is close to the running track, shall be imparted training by the railway trainer at contractor own cost about the safety measures to be adopted while working in the vicinity of running track. Further competency certificate to the individual supervisors/operator shall be issued by a railway officer not below the rank of assistant level officer who is In charge of site. No supervisor/operator of the contractor shall work or allowed to work in the vicinity of running track that is not in possession of valid competency certificate.
 - g. Survey of site by supervisor of contractor and railways to assess the precautions to be taken at site for working of trains and materials required for protection.
 - h. Written advice to sectional ADEN/SE (P.way) and SE (Works) about the detailed planning of work including protection of track and safety measures proposed to be adopted.
 - i. A copy of the approved methodology (to be approved by engineer in charge) proposed to be adapted by the contractor with a view to ensure safety of trains, passengers and workers.
 - j. Assurance that the methods and arrangements are actually available at site before start of the work and the contractor's supervisors and the workers have clearly understood the safety aspects and requirement to be adapted/followed while executing the work.
 - k. An assurance register has been kept at site duly signed by both railway supervisor as well as by the contractor supervisor as a token of their having understood the safety precautions to be observed at site.

4. Information as indicated in item 3 (a) to 3 (k) shall be obtained from contractor prior to the start of the work and the methodology proposed to be adapted by the contractor with a view to ensure safety of trains, passengers and workers and shall be approved by sectional DEN/Sr. DEN if the work is directly supervised by open line.
5. No work shall which is to be done near running track shall commence unless permitted by sectional ADEN/DEN/Sr. DEN
6. Before the start of work, the land strip adjacent to running track where road vehicle/machinery is to ply/work (for the work) shall be demarcated by lime in advance at the appropriate distance from the centre of existing track in consultation with railway supervisor. Wooden pegs at interval not exceeding 75 m shall be provided along the line marking as permanent marks. The road vehicles shall ply or machinery shall work so as not to infringe the line of demarcation.
7. Barricading as per the design given in DRG No. CTE/4110/1 F/TYPE PLAN/2018 (Annexure- I & IA) shall be provided as per para 11 below.
8. Precaution shall be taken form safety of pubic or passengers, while executing works at locations, used by passengers and public.
The worksite shall be suitably demarcated to keep public and passengers away from work area. Necessary signage boards such “work in progress”. Inconvenience is regretted”. etc. shall be provided at appropriate locations to warn the public/passengers. the barricading with retro reflective strips should be provided around the worksites to make the worksites visible to passersby during night hours. Adequate lighting arrangement of worksite wherever required shall be done to ensure safety of public/passengers duringnight.

9 Execution of works closed to or on running line :

Any work close to or on running tracks shall be executed under the presence of a railway’s supervisoronly.

Precaution to be taken to ensure safety of trains while execution of work close to the running line or onrunning lines.

- (a) Such works shall be planned and necessary drawing particularly with regard to infringement to moving dimension shall be finalized duly approved by competent authority before execution of work. The work shall be executed only as per approved procedure and drawings.
 - (b) All temporary arrangements required to be made during execution of work shall be made in such a manner that moving dimension do not infringe.
 - (c) Suitable speed restriction shall be imposed or traffic block shall be ensured as required.
 - (d) The site shall be protected as per provisions of Para no. 806 and 807 of P-Way manual as case may be.
 - (e) Necessary equipment for safety of trains during emergency shall be kept ready at site.
10. Normally, the road vehicle shall be run or machinery shall be worked so as not to come closer than 6.0 m from centre line of nearest track.

11. If a road vehicle or machinery is to work closer to 6.0 m due to site conditions or requirement of work, following precautions shall be observed.
 - (a) In no case the road vehicle shall run or machinery shall work at distance less than 3.5 m from centre line of track.
 - (b) Demarcation of land shall be done by Barricading for protection of the running lines on Worksite to be done as per approved DRG No. CTE/4110/1-F/TYPE PLAN/2018 (Annexure- I & IA) and payment for the same will be made separately as per IRUSSOR item No. 013100.
 - (c) Presence of an authorized railway's representative shall be ensured before plying of vehicle or working of machinery.
 - (d) Railway's supervisor shall issue suitable caution order to drivers of approaching train about road vehicles plying r machineries working close to running tracks. the train drivers shall be advised to whistle freely to warn about the approaching train. whistle boards shall be provided wherever considered necessary.
 - (e) Lookout men shall be posted along the track at a distance of 800 m from such locations that will carry red flag and whistles on both sides of affected portion of track to warn the road vehicle/machinery users about the approaching train.
 - (f) On curves where visibility is poor, additional lookout men shall be posted.
12. In case, work is planned to be done within 3.5 m of centre line of running track, it shall be ensured that the work is done under block protection only and necessary safety precautions for protection to track as per Para no. 806 and 807 of IRPWM are taken.
13. Precaution to be taken while reversing road vehicle alongside the track: The location where vehicle will take a turn shall be demarcated duly approved by railway's representative. The road vehicle driver shall always face the railway track during the course of turning/reversing his vehicle. Presence of an authorized railway representative shall be ensured such location.
14. Road vehicle shall not be allowed to run along the track during night hours generally. in unavoidable situations, however vehicles shall be allowed to work during night hours only in the presence of an authorized railway's representative and when adequate lighting arrangement are made and where adequate precautions as mentioned earlier have been ensured.
15. Checklist given in annexure 03 shall be used to ensure that all the requisite measures have been taken before start of the work.

II Measures to be ensured during the execution of the work.

1. Contractor has deputed trained supervisors in required number at worksites duly certified by ADEN/in charge of the works.
2. Drivers of vehicles/operators of the machines have been briefed about the safety and precautions to be taken while moving /working close to traffic.
3. Contractor shall not ply road vehicles /working of machinery between sunset to sunrise. In case of emergency where it is necessary to work during night hours sufficient lighting shall be ensured in the

complete work area for the safety of public and passengers. Also additional staff shall be posted as necessary for night working and taking safety precautions.

4. The contractor shall not change the approved vehicle /machinery and driver /operator for working at site. Contractor shall not induct any new vehicle/machinery and driver/operator without prior written approval of assistant engineer/assistant officer and the list of such changes with numbers of individual vehicle, name and license particulars of the driver shall be given to ADEN/DEN/Sr. DEN of the section.
5. Contractor shall ensure that road vehicle/machinery ply/work in a way so that these do not infringe the line of demonstration.
6. Lookout men with required safety equipment shall be posted where necessary.
7. In unusual circumstances, where operator apprehends danger to track while working truck/machinery near running track, following action shall be taken.
 - (a) the contractor/supervisor/vehicle operator immediately advise the situation to railway official/officials of the organization executing the work and assist him/them in protecting the track.
 - (b) Protection shall be done as done for other emergencies.
8. Individual vehicle/machinery shall not be left unattended at site of work. if it is unavoidable and becomes necessary to table the road vehicle/machinery at site near the running track, these shall be properly secured against any possible roll off and always be manned even during non-working hours. in addition, the road vehicle /machinery should be stabled parallel to track only so that incase of failure of any securing arrangement, it may not roll towards the track.
9. All temporary arrangements required to be made during execution of work shall be made in such a manner that moving dimension do not infringe. Necessary checks shall be exercised by site incharge from time to time.
10. While inspecting the worksite check list given in annexure 04 shall be used to ensure that all the requisite measures have been taken during the execution of the work.
11. During the hours of night, lamps of temporary indicators which are not of reflective type should be lit at sun-set and kept burning till sun rise, where trains run at night.

III Precautions required to be taken during execution of work requiring traffic Blocks: Any work, which infringes the moving dimensions or causes discontinuity in the track/any activity making the existing track unsafe for passage of trains etc, shall be started only after the traffic blocks has been imposed, railway servant in charge of the work is present at the worksite, engineering signals are exhibited at specified distance and flagmen are posted with necessary equipment to man them etc.

1. Before closing the work, the track shall be left with the proper track geometry so that the trains run safely and flagmen are kept in the night with safety and track protection equipment to patrol the stretch and take action to protect the track, if so warranted and inform the railway supervisors.
2. After completion of work, the released sleepers and fittings should be properly stacked away from the track, and should be kept clear of moving dimensions.
3. Block shall be removed only when all the temporary arrangement, machineries, tools, plants etc have been kept clear of moving dimensions.

IV Protection of track during emergency.

- (A) Action to be taken when a contractor's supervisor or vehicle operator apprehends any unusual circumstances likely to infringe the track and endanger safe running of trains.

At any time if a contractor's supervisor or vehicle operator observes any unusual circumstances likely to infringe the track and endanger safe running of track, she/he shall take immediate steps to advise railway officials of such danger and assist her/him in protection of track.

The track shall be protected as under:

Whenever in consequences of an obstruction of a line or for any other reason it is necessary for a railway servant to stop approaching train she/ he shall plant a danger signal at the spot and proceed with all haste in the direction of an approaching train with a danger signal (red flag by day and red light by night) to a point 600 meters for broad gauge and 400 metres for metre gauge and narrow gauge from the obstruction and place one detonator on the line after which she/he shall proceed further for not less than 1200 meters for broad gauge and 800 meters for meter gauge and narrow gauge from the obstruction and place three detonators on line 10 meters apart. She/he should then take a sand at a place not less than 45 meters from where she/he can obtain a good view of an approaching train and continue to exhibit the danger signal (as shown in annexure -02), until recalled, if recalled, she/he shall leave on the line three detonator and on her/his way back pick up the intermediate detonator continuing to show the danger signal, in case of single line similar protection shall be done on opposite direction.

- (B) Action to be taken if train is seen approaching to site of danger and there is no time to protect the track as per guidelines mentioned above -
in such a case the detonators shall be planted on rails immediately at distance away from place of danger as far as possible and attention of driver of approaching train shall be invited by whistling, warning the red flag vigorously gesticulating and shouting.
- (C) Action to be taken if more than one track is obstructed –
- (a) In case of single line protection as above shall be done in both the directions from place of danger.
 - (b) In case of double line or multiple lines, if other tracks are also obstructed, the protection as above shall be done for other track also.
 - (c) The protection shall be done in that direction and on that track first on which train is likely to arrive first.
 - (d) The contractor's supervisors, operators and lookout men shall be properly explained about the direction of trains on running tracks.
- (D) Equipment required for protection of track – minimum complement of protection equipment i.e. 10 detonator, 4 red hand flags, 04 red hand lamp, 04 banner flag and whistle etc. shall always be kept ready at worksites for use in case of emergency. Railway will arrange to provide detonator, whereas contractors shall arrange other equipment at his own cost.

(V) General Instructions:

1. Provision of Para 826 of IRPWM is reproduced as below:

826 Safe working of contractors- A large number of men and machinery are deployed by the contractors for track renewals, gauge conversions, doublings, bridge rebuilding etc. It is therefore essential that adequate safety measures be taken for safety of the trains as well as the work force.

The following measures should invariably be adopted:

- (i) The contractor shall not start any work without the presence of railway supervisor or his representative and contractors supervisor at site.
- (ii) Wherever the road vehicles and / or machinery are required to work in the close vicinity of railway line, the work shall be so carried out that there is no infringement to the Railway's schedule of dimensions. For this purpose, the area where road vehicles, and/or machinery are required to ply, shall be demarcated and acknowledged by the contractor. Special care shall be taken for turning / reversal of road vehicles/ machinery without infringing the running track. Barricading shall be provided wherever justified and feasible as per site conditions.
- (iii) The look out and whistle caution order be issued to the trains and speed restrictions imposed where considered necessary. Suitable flagmen/detonators shall be provided where necessary for protection of trains.
- (iv) The supervisor/workmen should be counselled about safety measures. A competency certificate to the contractor's supervisor as per Performa Competency Certificate shall be issued by AEN, which will be valid only for the work for which it has been issued.
- (v) The unloaded ballast/rails/sleepers/ other P-way materials after unloading along track should be kept clear off moving dimensions and stacked as per the specified heights and distance from the running track.
- (vi) Supplementary site specific instructions, wherever considered necessary shall be issued by the Engineer in Charge.

The Engineers in-charge shall approve the methodology proposed to be adopted by the contractor, with a view to ensure safety of trains, passengers and workers and he shall also ensure that the methods and arrangements are actually available at site before start of the work and the contractor's supervisors and the workers have clearly understood the safety aspects and requirements to be adopted/ followed while executing the work. There shall be an assurance register kept at each site, which will have to be signed by both, i.e. Railway supervisor or his representative as well as the contractor's supervisor as a token of their having understood the safety precautions to be observed at sites.

COMPETENCY CERTIFICATE

Certified that Ms/Shri _____

P.Way Supervisor of M/s

_____ has been examined regarding P.Way working on _____ work. His knowledge has been found satisfactory and he is capable of supervising the work safely.

Assistant Engineer

2. In case of works involving joint work: of open line and construction department, the duties and responsibilities should be clearly brought out in advance duly signed by both the departments. It is preferable that the work is done by a single department in whose jurisdiction the major worksite falls. Wherever it is not feasible, responsibilities and the duties of each agency should be clearly outlined in advance and detailed MOU should be prepared and signed by both the agencies.
3. Caution order should be issued to all the trains passing through the work sites at least during working hours for the drivers to look out, with or without any speed restrictions as per the site requirement
4. It should be ensured that, no new OFC or quad cable is laid close to the existing tracks. It shall be laid close to the railway boundary to the extent possible to avoid any interference with the future works (doubling etc.). Route plan of S & T cable and electrical cable should be prepared by the concerned S & T and electrical officers
Respectively and got approved before undertaking the work. The completion cable route plan should be finalized Block Section by Block section, as soon as the work is completed.
5. Open line staff and Engineers shall keep a watch on the safety precautions being taken at the work site and should immediately stop the work, if any unsafe working is noticed, and the work should be started again after taking all the corrective measures.
6. Night working should be avoided as far as possible. If due to any emergency, night working is done then proper lighting arrangement should be made.
7. Availability of first aid box should be ensured at each worksite. At major work sites involving no of labour and heavy machineries, efforts should be made to make available medical assistance at the site itself during working.
8. During machine working or execution of work involving heavy machines,
Protection man should be deployed in either side to warn the staff about the arrival of train, especially in double line.
9. No work shall be commenced on worksite during foggy weather or during restricted visibility. If in unavoidable situation, the work is to be carried out then additional lookout man, as per the site requirement, should be posted.
10. While digging in station area, if any cable is found, digging should be stopped and concerned signaling/electrical staff should be informed immediately.
11. Mobile phones or Walkie-Talkie sets where necessary should be provided at works sites. However all the staff should be counseled not to use above devices while standing on or near the track.

VI) For undertaking digging work in the vicinity of underground Signaling, Electrical and Telecommunication cable, Joint procedure order no. 17/2013 is to be followed.

(VII) Precaution for handling of departmental material trains:

Instructions for working of material trains are contained in Chapter XII of IRPWM, which should be brought to the notice of the supervisors and other staff working on the material trains. a) Issue of 'fit to run' certificate.

As per Para 1207 before a material train is allowed to work, the complete rake should be examined by the Carriage and Wagon staff and a 'fit to run' certificate issued to the Guard.

- b) As per Para 1208 of IRPWM, a qualified Engineering official should be deputed on the train to ensure working of the material train as the Guard is not qualified to carry out such duties like Supervising of loading and unloading of materials.
- c) As per para 1204 of IRPWM, the material train should not be permitted to work during the period of poor visibility due to fog, storm or any other cause except with the permission of the ADEN/DEN. Working of the material trains carrying labour should not be permitted between sunset and sunrise except in an emergency.
- d) While unloading rail panels by the side of the running tracks, placement of the panels, clear of the maximum moving dimensions should be ensured.
- e) Unloading of rail panels should be done by a team of trained staff under the active supervision of competent Supervisor/ Officer.
- f) Before unloading of rail panels, site should be prepared by way of leveling/removing extra ballast, if any, from the crib and shoulder with the objective to ensure requisite lateral and vertical clearances so as to prevent slippage of rail panels due to vibration during the passage of trains.
- g) Reasonably adequate block should be asked and provided for unloading of the material and the work should be done preferably in day light to avoid shortcut in haste which may infringe the safety requirements.

(VIII) Stacking of material along railway track:

- 1. The sites for material stacking shall be selected in advance ensuring that no part of the stacked material would infringe the standard moving dimensions. A plan of proposed stacking locations be made and signed jointly by an authorized Railway's representative and contractor's representative.
- 2. The selected locations shall be marked by lime in advance.
- 3. Presence of an authorized railway's representative while unloading and stacking shall be ensured.
- 4. The material shall be stacked up to such a height, which will not cause infringement to SOD in case of accidental roll off.

Note : For items of barricading, sign boards like 'work in progress', walkie-talkie sets, mobile phones, lookout men etc suitable provision may be incorporated in the tender conditions as per site requirement.

(IX) Safety aspects to be observed while working in OHE area:

- a) No electrical work close to running track shall be carried out without permission of railway representative.
- b) A minimum distance of 2m has to be maintained between live OHE wire and body part of worker or tools or metallic supports etc.**
- c) No electric connection etc. can be tapped from OHE.
- d) Authorized OHE staff should invariably be present when the relaying work or any major work is carried out.
- e) Power block is correctly taken and ‘**permit to work**’ is issued.
- f) The Structure bonds, tracks bonds, cross bonds, longitudinal rail bonds are not disturbed and
- g) If disconnected for the work, they are reconnected properly when the work is completed.
- h) The track level is not raised beyond the permissible limit during the work.

Note: For items of barricading, Sign Boards like- “Work in Progress”, walkie-talkie sets, mobile phones, look out man etc. , suitable provision may be incorporated in the tender conditions as per site requirements.
