

TECHNICAL SPECIFICATION OF RO WATER PURIFIER

ANNEXURE-A

SL.NO.	Description of Specification		Firm's Compliance
1.	Mounting type	Free standing or wall mounting	
2.	Filtration capacity (In LPH)	24 LPH or above	
3.	Input water source connection	Yes	
4.	Minimum storage Tank capacity (in liter)	6 Liter or higher.	
5.	Purifying Technology	RO+UV+COPPER+TDS CONTROL+ Mineral Filter+ Taste Enhancer or Higher	
6.	Power Requirement	AC 150-250V, 50HZ	
7.	Power Consumption	30W-50W	
8.	Maximum input water temperature	45 Degree C	
9.	Minimum input water temperature	05 Degree C	
10.	Storage Tank Material	ABS/PP Food Grade	
11.	Guaranteed output water quality	As per IS 10500 or better	
12.	Controller	Auto cut-off	
13.	Prefilter Included	Yes	
14.	Make	Eureka Forbes (Aqua guard)/ KENT/ Bluestar/Voltas/Livepure/ Havells/ V-Guard.	
15.	Comprehensive warranty for complete unit	36 Months onsite Comprehensive Warranty (At all 97 road side stations of CKP Division as per Annexure-I and Annexure-II where the Water purifier will be installed) or higher.	
16.	Minimum Free Services during Comprehensive warranty: CMC: for complete unit	2 nos. per year	
17.	Installation and commissioning inclusive in the scope of supply	Yes	
18.	Construction	Aesthetically designed, self-contained RO water purification system having all the necessary components such as pressure pump, filters, water tank, suitable hot / cold / normal water dispensing arrangement, control system etc. as applicable to provide safe drinking water as per IS 10500	
19.	A sample of the item shall be checked and certified by the consignee before the bulk supply of all items.	Yes
