In case, it is stated by the bidder that ED as applicable at the time of supply will be charged extra, their offer will be evaluated on the basis of maximum rate of ED, which may become applicable.
- 2.11.1.5 If firm's offer is ambiguous in respect of ED or if it quotes concessional ED in the rate page presuming its classification under concessional Tariff Head but further qualifies it through remarks that any re-classification of item in different Tariff Head resulting in higher rate of ED will be to purchaser's account etc., then its offer will be loaded by the maximum rate of ED which may become applicable and the ranking will also be decided accordingly.
- 2.11.1.6 Therefore, bidders, in their own interest, are advised to quote clear rate of ED without any qualifying or ambiguous remarks.
- 2.11.2 Applicable only for Items which are covered by GST**
- 2.11.2.1 The offers shall be evaluated based on the GST rates as quoted by each bidder and same will be used for determining the inter se ranking. While submitting offer, it shall be the responsibility of the bidder to ensure that they quote correct GST rate and HSN number.
- 2.11.2.2 Purchaser shall not be responsible for any misclassification of HSN number or incorrect GST rate if quoted by the bidder.
- 2.11.2.3 Wherever the successful bidder invoices the goods at GST rate or HSN number which is different from that incorporated in the Purchase order, payment shall be made as per GST rate which is lower of the GST rate incorporated in the Purchase order or billed.
- 2.11.2.4 Vendor is informed that she/ he would be required to adjust her/ his basic price to the extent required by higher tax billed as per invoice to match the all inclusive price as mentioned in the purchase order.
- 2.11.2.5 Any amendment to GST rate or HSN number in the contract shall be as per the contractual conditions and statutory amendments in the quoted GST rate and HSN number under GST
- 2.11.3 Evaluation criteria for multi-consignee / multi-items tenders**
- (a) Unless otherwise specified, the evaluation of tender will be done item wise and consignee wise.
- (b) For multi consignee items, the rate should be quoted by firm on FOR Destination basis for each consignee separately. The inter-se ranking of the offers will be decided for each consignee separately.
- (c) In tenders where schedule of requirement consists of several items, the inter-se ranking will be decided for each item separately. The firms are required to quote the rate for each item separately.
- (d) In tenders where several items are grouped in a "KIT" or "SET" and the tendered quantity is in sets, the firm should quote single rate for the tendered kit/set of items. In such cases, the inter-se ranking shall be decided on the rate quoted by the firm for "Kit" or "Set" of items.

## **2.12 Items to be procured from approved sources listed on UVAM:**

2.12.1 Wherever necessary, as per procurement policy of the Government, Purchaser reserves the right to purchase either the Entire or Bulk quantity i.e. 80% of NPQ from firms for such items which are reserved for procurement of Entire/Bulk requirements from sources who have been approved by Centralized Vendor Approving agencies such as RDSO, Production Units (PUs), CORE etc. to manufacture and supply the tendered item/item of tendered specification/ item specified in the eligibility criteria of the tender. The tenderers should upload copies of such approval letters along with their offers.

2.12.2 The approval status of the firm will be reckoned as on the date of the tender opening and not thereafter except in case of downgrading / removal / suspension / banning etc. after opening of tender, when changes shall be taken into account while considering the offer.

2.12.2.1 Where there are not more than three Indian Suppliers categorized as Approved Vendor in RDSO vendor directory for a particular item, developmental vendors can be considered for placement of bulk order without any quantity restrictions. However, while considering such vendors, factor including past performance,

capacity, delivery requirements, quantity under procurement, nature of item, outstanding order load etc. shall be considered in transparent manner, subject to rates being reasonable. Quantity allocation among eligible vendors shall be based on pre-decided tender criteria. Such order shall be treated as bulk order.

- 2.12.2.2 System of vendor categorization adopted for RDSO shall be followed for all the vendor approving agencies to bring uniformity. All the policies for ordering in procurement of items reserved to be procured from vendors approved by RDSO shall apply, as it is and as amended by Railway Board from time to time, on procurement of items reserved to be procured from vendors approved by other vendor approving agencies also including consideration of developmental vendors for placement of bulk orders without any quantity restriction in case of items where there are not more than three approved vendors.
- 2.12.2.3 Railway Board letter no. 2001/RS(G)/779/7 Pt 2 (1) dated 06-11-2018 for consideration of developmental vendors for placement of bulk order without any quantity restriction in case of items where there are no more than three approved vendors shall also apply for all items approved by all vendor approving agencies.
- 2.12.3 If the works address indicated in the offer is different from what is indicated in the approval certificate issued by the respective vendor approval agency, then such offer will be treated as if the same has been received from an unapproved source.
- 2.12.4 **Placement of Developmental Orders against regular tenders:**  
 (a) Offers of developmental vendors appearing in U-VAM for the tendered item (without any condition for prototype/field trial clearance) can be considered for developmental order up to 20% of NPQ.  
 (b) Developmental vendors appearing in U-VAM (with condition for prototype/field trial clearance) as well as vendor whose name do not appear in U-VAM for the tendered item may be considered for small quantity developmental order as per existing guideline. Offer of vendors whose name do not appear in U-VAM for the tendered item will be considered for developmental order only if, along with offer, they enclose required past credential of supply of same item / similar to tendered item, details of Plant & Machinery, Testing Facility, QAP, ISO Certificate and other relevant document to substantiate their capacity to develop and supply the tendered item subject to successful capacity-cum capability assessment and completion of formalities as per the bid condition.
- Note- For RDSO controlled items, placement of developmental order on new sources may be recommended with provision in Letter of Acceptance (LOA) that capability and Capacity assessment (CCA) will be done by RDSO. Formal PO shall be issued subjected to CCA clearance by RDSO.
- 2.12.5 **Placement of Developmental Orders against developmental tenders:**  
 Placement of developmental order through developmental tender shall be governed as per policy circular issued vide Railway Board's letter no. 99/RS(G)/709/1/Pt. Dt. 13.01.2015 is applicable for placement of developmental order through developmental tender.
- 2.12.6 Offers from authorized agents will be considered only if they submit tender specific authorization from the manufacturer, failing which their offer will be ignored summarily without making any further reference to them.

- 2.12.8 In a tender either the Agent on behalf of the Principal/ OEM or Principal/ OEM itself can bid but both cannot bid simultaneously for the same item/product in the same tender. In cases where both principal/OEM and their agent participate in bidding for same item/product, any or both the bids shall be liable to be rejected.

## 2.13 Items for which no approved vendor list has been issued:

A tender-specific eligibility criteria will be mentioned in such cases and the same shall be incorporated in the tender schedule/NIT as approved by competent authority.

2.13.1 In normal circumstances, Regular bulk order(s) of minimum 80% of NPQ shall be placed on the tenderer having 'Relevant past performance'. Quantity for 'Relevant past performance' for consideration of bulk order will normally be mentioned in Tender's Schedule of requirement. Further, balance quantity upto 20% of the NPQ may be ordered on new sources also, as developmental order(s), on the basis of capacity cum capability of the source as defined in Para below.

### 2.13.1.1 Relevant Past performance for Regular orders:

i. Regular Bulk Order: Such order(s) will be placed on the manufacturer(s) or its authorized agent. The manufacturer, during previous five years, must have satisfactorily executed at least one single purchase order (issued in these previous 5 years) of Zonal Railways/ PUs/ CORE for the tendered item [OR similar items, which shall be defined in the tender document, if applicable] for a minimum of 20 percent of total tendered quantity, or executed at least two purchase orders for minimum 10% of the tendered quantity. This period of five years shall be counted with respect to date of tender closing. ii. The onus of submission of requisite documents in support of their past credentials shall lie

with the tenderer. For the purpose of this clause, any item supplied with same Drawing & Specification number as of 'Tendered Item' but different alteration number, will also be counted for past performance of tendered item. If there are more than one items in the tender eligibility criteria will be applicable item wise unless or otherwise so stated in the tender schedule.

2.13.1.2 i) Receipt Notes/Proof of acceptance of material by consignee and/ OR

ii) Inspection Certificate with self-declaration by the bidder that supply has been accepted by consignee rest with the Bidders. Furnishing of false declaration shall lead to termination of contract besides initiating further punitive actions as per the Law in vogue.

iii). In case, the tenderers do not submit the requisite documents as per Annexure shall be taken as their not having any such past performance and/or capacity, the Purchaser may exercise the option to decide the tender on the basis of their past supply performance records as available with the Purchaser [if any] and no back reference shall be made in this regard. Nevertheless, tenderer shall have no claim over the purchaser, if any past performance in purchaser's own record could not be connected or missed out by the purchaser after default of the tenderer in submission with his offer.

iv.) In case tenderer participates as an authorized agent, then the performance as required above shall be that of the principal, authorizing the agent. It may so happen that the agent has credentials of past supply for a different Principal, but these will not be considered as performance for placing bulk order in case of change of Principal

#### 2.13.1.3 'Relevant Past Performance' for Regular Orders:

The past performance for satisfactory execution shall mean and include performance in respect of any one of the following: -

- (a) Tendered item, unless (b) or (c) is expressly specified in the tender schedule
- (b) Similar item, or
- (c) Any of the tendered items as the case may be,

#### 2.13.2 'Capacity-cum-Capability' for Developmental Order:

For consideration of developmental orders, the tenderers must be able to demonstrate their capacity-cum-capability to manufacture the tendered item. For this purpose they should submit along with their offer, documented past performance reports of same or similar items of equivalent rating or equivalent performance parameters, details of M&P, testing facilities, QAP (If available), technical manpower available with them, registration for same/similar item(s) with other Government agencies or PSUs etc. or any other details as may be warranted as per the technical specification and Drawing. Such tenderers are to note that non submission of such documents shall be taken as their not having any such past performance and/or capacity, and their offer shall be considered further as per extant rules and no back reference in this regard will be made to them.

Issue of Sample on return basis: Whenever demanded by the vendor and considered justified by BLW as an expedient measure for development of item, BLW may issue a returnable sample after submission of necessary financial security of adequate value along with non disclosure agreement (NDA) by the firm. The sample so issued by BLW shall be deemed just "one of the many" and shall not be made a basis for any change in the drawing/ specification post contract. Decision in regard to issue of sample will be sole discretion of BLW and binding to firm.

#### 2.13.3 Material to be procured from OEM or their authorized dealers / distributors:

- (a) Wherever so specified, the Railways reserve the right to place orders for either entire or bulk quantity on OEMs or their authorized dealers.
- (b) Any firm quoting on behalf of OEM must submit tender specific authorization certificate or valid distributorship/dealership agreement as the case maybe, along with their offer and agree for inspection by the nominated agency (as the case may be) at the premises of their principals, failing which their offer shall be liable to be rejected.
- (c) The following would be preferred in such cases:
  - (i) Inspection by Nominated TPI agency at the manufacturing premises of the relevant manufacturer. Nominated TPI agency shall categorically confirm in the Inspection Certificate, that inspection of the material has been actually made in the manufacturing premises of the manufacturers and not in the warehouse/Godown/Shop of the dealer
  - (ii) Direct dispatch from the premises of the manufacturer to the Railways consignee after inspection and acceptance by TPI/ RDSO.
  - (iii) Submission of Manufacturer's Test and Guarantee Certificate with each lot of supply.
- (d) The OEM/Authorized Dealers/Agents must comply with the following conditions failing which their offers are liable to be rejected without further reference: i) In a tender, either the authorized agent/dealer on behalf of the Principal/OEM or the Principal/OEM itself can bid, but both cannot bid simultaneously for the same item in the same tender. Further, against a particular tender, one Principal/OEM cannot issue Tender Specific Authorization to more than one agent/dealer.

Such offers with different terms against a particular product if treated as ambiguous offers, the bidder(s) or their Principal/OEM will have no right to lodge any claim. ii) If an authorized agent/dealer submits a bid on behalf of the Principal/OEM, the same agent/dealer shall not submit a bid on behalf of another Principal/OEM in the same tender for the same item/product..

#### **2.14 Insertion of Option Clause: (Whenever inserted in NIT)**

**2.14 .1** The purchaser shall be entitled to increase the order quantity up to + 30% anytime within the delivery period (including extended delivery period over and above Special option clause quantity) on the same terms and conditions. The increase in quantity with respect to the tender quantity can be done even at the time of ordering and the tenderer shall be bound to accept the quantity so ordered on the basis of his original offer. The purchaser shall be entitled to exercise + 30% option clause in one or more than one installment as long as the total variation in quantity does not exceed the limit of 30% of ordered quantity.

2.14.2 Deleted

#### **2.14 .3 Operation of Option Clause:**

Where the + (plus) 30% quantity option leads to fractional quantities, these may be rounded off to the next higher number, if the fraction obtained is 0.5 or more.

Option Clause can be exercised anytime within the Delivery period, by giving reasonable notice .

'Reasonable notice' as mentioned above is only for the purpose of allowing the contractor suitable time to make necessary arrangements for the supplies and not for seeking any consent from the contractor towards exercise of the contractual option clause. To this end, a reasonable delivery schedule for the enhanced ordered quantity stipulated in the relevant Modification Advice to the contract will suffice.

In a contract that provides for quantity option clause, in case Delivery Period is extended either for the full ordered quantity or a part quantity which remained unsupplied on the date of expiry of the original delivery period, then during the extended delivery period also, quantity variations can be made on the total ordered quantities.

#### **2.15 Pilot Sample:**

2.15.1 Whenever, in terms of the contract, firm is required to submit pilot sample, they will be required to submit minimum three samples for approval, if not specified otherwise. Out of that, one sample, if found suitable after testing, will be returned to the firm for reference purpose and for the guidance of the Inspection Agency, if required. One sample duly approved shall be retained by the Depot officer. The 3<sup>rd</sup> sample, if gets destroyed during the testing, shall be accounted for by the Depot officer, provided same gets passed and found suitable during testing.

2.15.2 In the event of a pilot sample failing the inspection/tests, all the samples whether intact or broken during a destructive test as the case may be, shall be returned to the supplier along with the inspection report, if any, provided by the inspecting/testing agency.

2.15.3 Submission and collection of the sample shall be sole responsibility of the supplier.

#### **2.16 Quantity to be ordered:**

2.16.1 Railways reserves the right to cancel the tender for full or part quantity tendered without assigning any reason. The rates quoted by the tenderers for the full quantity would be taken as valid even for part quantity.

2.16.2 Wherever considered necessary by the purchaser, the quantity to be ordered can be split amongst two or more sources for ensuring better availability of material keeping in view the vital / critical nature of item, quantity to be procured, delivery requirements, capacity of the firms and past performance of the firms. In such cases the provisions of Para 2.17 shall be normally applicable.

2.16.3 The Principal Chief Materials Manager or any officer authorized on behalf of President of India acting through, General Manager is not bound to accept the lowest or any offer nor to assign any reason for doing so and reserves the right to accept any offer in respect of the whole or any portion of the item specified in the tender and contractor shall be required to supply at the rate quoted.

#### **2.17 Criteria for Splitting of Tender Quantity (In case of pre-decided split ordering):**

2.17.1 The purchaser reserves the right to distribute the procurable quantity on one or more than one of the eligible tenderers. Zone of consideration of such eligible tenderers will be the right of the Purchaser. The zone of consideration will be a dynamic mix of inter-se position of firms, supply performance of the firms, quantity being procured, criticality of and lead time of supply of the item, number of established suppliers, their capacity etc.

2.17.2 Whenever such splitting of procurable quantity is made, the quantity distribution will depend (in an inverse

manner) upon the differential of rates quoted by the tenderers (other aspects i.e. adequate capacity-cum-capability, satisfactory past performance of the tenderers, outstanding orders load for the Railway making the procurement, quoted delivery schedule vis-à-vis the delivery schedule incorporated in the tender enquiry etc, being same / similar) in the manner detailed in the table below :

Price differential between L1 and L2	Quantity distribution ratio between L1 and L2
Up to 3%	60:40
More than 3% and up to 5%	65:35
More than 5%	At least 65% on the L1 tenderer. For the quantity to be ordered on the L-2 tenderer, TC/TAA shall decide.

In the phrase 'differential rates quoted by the tenderers', the quoted rate would mean:

- i. When no price negotiation has been called for, the original rates as obtained at the time of tender opening. However, the rate of the highest eligible tenderer within the zone of consideration has to be per se reasonable.
- ii. When price negotiation has been called for, the reference L1 rate for assessment of ratio will be the original rate of L1 firm (suitable for bulk quantity) – say firm "A" – as obtained at the time of tender opening.

2.17.3 If splitting of quantity is required to be done by ordering on tenderers higher than the L2 tenderer, then the quantity distribution proportion amongst the tenderers will be decided by transparent/logical/equity based extrapolation of the model as indicated in the above para.

2.17.4 The rate of highest eligible tenderer within the zone of consideration has to be per-se, reasonable to the purchaser.

2.17.5 In the cases of inadequate capacity-cum-capability, dissatisfactory past performance, large quantity of outstanding orders (liquidation of which will take very long time) etc., the Purchaser shall have the right to distribute the procurable quantity amongst tenderers with due consideration to these constraints and in such a manner that would ensure timely supply of material in requisite quantity to meet the needs of operation, maintenance, safety etc. of the Railways, regardless of inter-se ranking of the tenderers and in a fair and transparent manner with due conformity to the principles of Natural Justice and Equity.

2.17.6 In cases of pre-decided splitting, if the purchaser decides not to split the ordered quantity, the reason for the same should be recorded in TC minutes/acceptance in direct acceptance cases.

2.17.7 For cases where the Rlys/PUs had entered into ToT/JV agreements, the following clause should be stipulated as tender conditions:

"As the Rly has entered into ToT/JV agreement with.....no. of firms, they reserve the right to place orders on all such ToT/JV agreement partners. However, for ratio/proportion of quantity distribution among such agreement partners, conditions as detailed in Para 2.2.2 (B) shall apply with the exception that the aspect of 'per-se reasonability' will not be applicable."

## 2.18 Warranty/Guarantee:

2.18.1 Unless otherwise stated in the tender schedule and/or tendered specification, the warranty/guarantee as specified in the IRS conditions of the contract i.e. 30 months after their delivery shall apply, in case there is difference in the period specified in the tendered specification vis-a-vis IRS Conditions, the former will prevail.

Tenderers should further note that if the Guarantee/Warranty is a part of the tendered specification and/or tender schedule, then any deviation on this count, shall be treated as a technical deviation, which may render their offer technically unsuitable. **Bidders are advised to bring such deviation(s) clearly in the technical deviation statement. In case, this deviation is not indicated in the technical deviation statement, it will be presumed that offer is as per the tendered specification in all respect. Any ambiguity in this regard or any other respect shall be to the disadvantage of the bidder.**

Further, Suppliers shall ensure that the materials are invariably stamped with marking as may be detailed

in drawing/specification of material to enable correct reckoning of warranty.

### 2.18.2 Bank Guarantee towards Warranty obligation:

For items like machinery and Plant, Costly equipment, capital spares, the tenderer, wherever called upon to do so, shall furnish a Bank Guarantee of 10% of Material value to cover their warranty obligation for a period of warranty period + 6 months.. The model proforma of the Warranty/Guarantee bond is annexed as Annexure 4.3. It would be the responsibility of the contractor to ensure that Bank Guarantee (BG) required to be submitted by them, should be sent directly by the issuing Bank under registered Post to the concerned Purchasing Authority and, in no case should be brought by the tenderer. That is to say, the firm shall not involve themselves in transmission of the BG between the issuing bank and the purchaser.

## 2.18 (A) Warranty Rejections:

Materials are rejected under warranty in the following situations:

- (A) Material rejected was issued to the user (shop/shed etc) from its attached Stores Depot or attached User Depot (both Stock & Non-stock).
- (B) Material rejected was received from a PU or a Stores Depot or a User Depot which is not the attached depot of the end user including that received directly through centralized procurement (both Stock & Non-stock).
- (C) Material was rejected in the field and was fitted at some other Workshop/Shed/Depot. Material either received or fitted through Supply Contract, Works Contract, or Service Contract or any other type of contracts (both Stock & Non-stock).
- (D) Failure of components of Rolling Stocks received from Railway PUs/ PSUs/ Workshops/Private Manufacturers.

## **A For warranty rejection in shop/shed etc. where rejected material was issued from its attached Stores Depot or attached User depot:**

i. "Warranty Rejection Advice" (i.e., warranty claims lodging) shall be issued to the firm with the approval of gazetted officer of the end consignee of attached Stores Depot/User Depot (depending upon where rejected material was accounted for after receipt from vendor) after getting the warranty rejected material from end-user.

ii. The "Warranty Rejection Advice" shall be issued by attached Stores Depot/User Depot to all concerned i.e., firm, purchaser, pre-inspecting agency, vendor approving agency, paying authority etc. as per the contract—without fail.

iii. In the Warranty Rejection Advice, the vendor shall be called upon for replacement of rejected stores or for deposition of equivalent amount of rejected material, within a period of 60 days from the date of Warranty Rejection Advice. Date of issue of Warranty Rejection Advice by gazetted officer to be taken as date of Warranty Rejection Advice.

iv. Firm shall be allowed to collect the rejected materials only after deposition of payments already made by Railway (if any) to them or after recovery of equivalent amount by Accounts or against replacement quantity. Rejected material shall be suitably defaced before handing over to the firm to avoid re-use, and necessary provision about digital capturing in respective modules may be done.

### **v. Warranty Quantity Replacement:**

a. Replacement of rejected quantity shall be made to the end consignee at the Stores Depot/User Depot which received the original supply from the firm.

b. The warranty quantity replacement will be supplied and accounted through R-Note/CRN which shall be clearly marked as **"Warranty Replacement CRN/R-Note, Not for Payment"**.

c. Item/equipment supplied against a particular warranty claim shall be used to close that warranty claim only. Any alternate use of the material can be done only with the written consent of the firm.

vi. Replaced/rectified material shall have warranty for the replaced/rectified goods till the original warranty period plus the time from the warranty rejection advice to material replacement/rectification. Record for the same shall be maintained by the system.

vii. Vendor would be permitted to lift the rejected material (subject to sub-para (iv) above) "free of cost" within the period mentioned in sub-para (iii) above (i.e., 60 days from the date of Warranty Rejection Advice). After this time, ground rent shall be applicable, ground rent details are available in annexure 4.17.

viii. In cases where firm fails to lift the warranty rejected material within the period mentioned in para 3203 of IRS Conditions of Contract (i.e., 3 months from the date of issue of warranty rejection advice by the gazetted officer), at the expiry of the period, no claim whatsoever shall lie against the purchaser in respect of the said goods, which may be disposed of by the Purchaser in such manner as he thinks fit. Without prejudice to the generality of the foregoing, all the provisions in the Indian Railways Standard Conditions of Contract relating to the 'rejection of goods' and 'failure' and 'termination' add and Clause 3100-02 shall apply.

However, in case the material under warranty rejection is not lying in Railway premises but is running online or being actively used by Railways, this clause shall not be applicable.

ix. In case disposal/closure/settlement of the Warranty Rejection Advice is not done by firm within the period of 60 days, Recovery Advice of equivalent amount of rejected material for which Warranty Claim has not been disposed/closed/settled shall be automatically generated and the **Centralized Recovery Register** of IPAS shall be automatically updated for recovery.

Any Bill Paying Authority across IR shall recover the amount mentioned in **Centralized Recovery Register** from firm's Bill(s), if any. Even if the payable amount against a Bill is not enough for the full recovery against a Warranty Claim, the Paying Authority shall proceed with partial recovery to the extent of payable amount against that Bill and balance recovery amount will remain in the **Centralized Recovery Register** for further recoveries from other Bill(s). After recovery, the **Centralized Recovery Register** shall be automatically updated immediately to avoid multiple recoveries by different Railways.

x. Once recovery has been made by Accounts or the recovery amount has been deposited by vendor, replacement/rectification/re-inspection of the warranty rejected quantity shall not be allowed after period of 60 days from date of issue of warranty rejection advice.

While receiving fresh replacement supplies/allowing Reinspection/Rectification by vendor against Warranty Rejection Advice after the period of 60 days, these activities are allowed only to the extent the Claim amount has not been recovered by Railways.

xi. However, cases where due to extreme urgency affecting out-turn, operation etc. it is in Railways' own interest to allow replacement/rectification/reinspection after a period of 60 days from issue of warranty rejection advice, it may be permitted with the approval of gazetted officer of minimum JAG level of the officer issuing warranty rejection advice. In such cases, "**Recovery Refund Letter**" shall be issued by gazetted officer of the office issuing warranty rejection advice to the extent permission is granted and warranty rejection is disposed/settled/closed by the vendor. However, ground rent as per sub-para viii above shall be applicable in such cases also.

xii. "**Recovery Refund Letter**" shall also be issued by gazetted officer of the office issuing warranty rejection advice in the following cases:

- If warranty is closed/disposed/settled within 60 day period and R-Note/CRN is issued after 60 day period.
- Amount deposited by vendor before recovery but details of such deposit entered by user after recovery.
- Warranty rejection advice withdrawn altogether after recovery.
- In other instances like court/arbitration judgment/order, etc. after recovery.
- Cases where, in spite of issue of warranty rejection advice, the item under warranty rejection has been actively running online or being actively used by Railways due to practical considerations.

xiii. The vendor may submit his supplementary bill on the basis of "**Recovery Refund Letter**" to the concerned paying authority which has deducted the refundable amount online or offline depending upon the case whether the bill against which recovery has been made was submitted online or offline.

xiv. However, if the recovery amount has been transferred by recovering railway to the Railway issuing warranty rejection advice, such information shall be passed on to all stakeholders by IPAS including to the vendor also to claim his refund. In such cases, supplementary bill shall be submitted to the railway where amount has been transferred.

**xv. Inspection of Replacement Supply:**

In line with IRS Conditions of Contract clause 0703, Vendor shall bear all cost of such replacement including freight, cost of inspection and inspection charges to inspecting agency, if any, on such replacing and replaced stores but without being entitled to any extra payment on that or any other account.

The replacement supply shall normally be inspected by the same inspection agency which inspected and passed the original supply. However, inspection clause for replacement of quantity rejected under warranty can be changed from 3rd Party Inspection (RITES/RDSO etc.) to Consignee Inspection with the approval of minimum JA grade level officer of the office issuing Warranty Rejection Advice, duly considering practicability of the case due to low quantity/value, criticality of the item, quality issues involved etc.

**Warranty Rejections:**

**B For Warranty rejection in Shop/Shed etc. of the material received from a PU or a Stores Depot or User Depot which is not the attached Depot of the end user including that received directly through centralized procurement –**

i. The "Warranty Rejection Advice" shall be issued on UDM by End User to all concerned i.e. firm, purchaser, pre-inspecting agency (if known), vendor approving agency, paying authority etc., without fail.

**ii. Warranty Quantity Replacement:**

a. Replacement of rejected quantity shall be made at the end of end user.

b. The warranty quantity replacement will be supplied and accounted for in UDM through CRN. The CRN should be clearly marked as "Warranty Replacement CRN, Not for Payment."

iv. Other provisions shall be as per sub-para (iii) to (xiii) of clause 18.3.1 above, except Para (v).

a. Rolling stock supplied by a private manufacturer or Railway/other PSUs:

Warranty claim shall be lodged against Rolling Stock supplier. This shall be the same case as clause 18.3.2 above, except that in case of items appearing in the approved vendor list of vendor approving agencies, information about such cases shall also be shared with vendor approving agencies. The Rolling Stock Supplier shall be the interface between Railway and component supplier. They have to organize the complete warranty settlement. Any action by the component supplier shall be at the specific direction and authority of Rolling Stock supplier.

b. Rolling stock supplied by Railway PUs, Workshop:

In all such cases, the warranty rejected material shall be kept in safe custody of the end user. End User shall register the warranty rejections with reasons for rejection and other details, as required. The concerned Railway PU or Workshop shall replace the rejected component within 60 days from warranty rejection registration date at the end of the concerned end User registering the warranty rejection either as a fresh supply by Railway PU/workshop or get it replaced/rectified through the component manufacturer/supplier whose supplies have been rejected. Simultaneously, the Railway PU/Workshop shall raise the warranty claim by issuing "Warranty Rejection Advice" on the concerned component manufacturer/supplier separately from their end as per the process detailed in clause 18.3.2 above.

**Note:**

1. Rectification of the rejected stores:

i. In case the vendor requests for rectification/repair of rejected stores in terms of sub-para 18.3.2, 18.3.3, and 18.3.4 above, rectification/repair shall be permitted in exceptional circumstances and only if the item can be effectively rectified/repared at the user end. At the option of the Depot Officer/officer of end-user (depending upon who has issued the "Warranty Rejection Advice"), rectification/repair of rejected stores by the firm shall be permitted within railway premises only.

ii. If the firm requests to rectify/repair the rejected stores at its own premises, the same shall be allowed only if the item has unique traceability to ensure that the rejected item cannot be supplied to any other consignee/user and if supplied, it can be traced. For taking out the rejected quantity for rectification/repair, equivalent value of rejected item shall be deposited by the firm.

iii. However, the rectification activity shall have to be completed within the timelines given in sub-para 18.3.1 (iii) from the date of issue of "Warranty Rejection Advice." After this, the process for recovery shall be initiated.

## **2. Handling Epidemic Failures:**

Any recurring/large-scale rejections from a particular lot will lead to epidemic failure.

i. Whenever the quantity rejected anytime during the warranty period exceeds 5% of the total supplied lot against a particular contract, it will be considered as Epidemic Failure. However, in case of failures related to items that are extremely critical from safety considerations (like critical components or sub-parts of air brake system, wheel discs, axles, propulsion system, etc.), RDSO/PU may pre-define a lower percentage for considering the occurrence of epidemic failure. The same shall be declared in the tender document for procurement of such items.

ii. The same steps as mentioned in sub-para 18.3.2, 18.3.3, and 18.3.4 above will be followed. However, instead of rejecting only defected quantity, the entire lot shall be rejected. Even if some quantity of such lot has been used/fitted, the same will also be identified and called back from service, to the extent possible, by the concerned technical department for issuing warranty rejection.

iii. Joint Inspection shall be conducted as per extant provisions.

iv. In case warranty rejection is established in joint inspection, the vendor shall replace the entire lot (as available, refer point ii above), duly inspected by inspecting agency as per the contract at his own expense.

v. Replacement supply should be inspected by the same agency which has previously inspected the supplies.

vi. Epidemic failure is essentially considered as very poor quality performance and shall be reflected on the performance of the vendor/Inspecting agency accordingly.

## **3. In case the vendor disputes the Warranty Rejection as per Warranty Rejection Advice:**

Representation from the vendor should be sent through IREPS system to the officer issuing Warranty Rejection Advice within 7 days from the issue of Warranty Rejection Advice. In such cases, a joint inspection shall be organized by the officer issuing Warranty Rejection Advice for the grounds of warranty rejections mentioned in the Warranty Rejection Advice.

## **4. In all cases of warranty rejections where items are appearing in the approved vendor list of vendor approving agencies:**

Information about such cases shall also be shared with the vendor approving agency for performance monitoring and capability/capacity assessment/delisting/down-grading of the vendor and review of the design/specifications/STR if required. If required, based on the merit of the case, Vendor approving agencies may take appropriate decisions on suspension of inspection.
