

Specification

S. No.	Item Description	Unit	No. User	Period
1	Supply, provisioning and maintenance of Claude.ai Max 5x Plan annual subscription (per user) for Branch Officers	Nos	15	12 months

- **5x More Usage:** Provides roughly 5x more usage per 5-hour session than the Pro plan. User reports suggest around 200–225 messages per 5-hour window, depending on prompt complexity.
- **Higher Output Limits:** Enables longer, more complex responses (writing, coding, summarization) per request compared to Pro.
- **Claude Code (Terminal/IDE Agent):** Full access to Claude’s terminal-based coding agent for building apps and refactoring.
- **Cowork File Automation:** Enables handling complex, multi-step tasks within the Claude Desktop app, allowing for automated workflows.
- **Priority Access:** Provides higher priority during high-traffic periods, ensuring uninterrupted service for critical work.
- **Early Access to New Features:** Access to new models (e.g., Claude 4.6 and higher) and interface tools before they are released to lower tiers.
- **Projects & Memory:** Allows for organizing, collaborating, and retaining context across multiple conversations
- **Model Access:** Includes top-tier models (Sonnet and Opus).
- **Context Window:** 200,000 tokens.
- **File Uploads:** Up to 30MB per file, with a max of 20 files per conversation.
- **Session Structure:** Weekly usage limits apply, and session resets occur every 5 hours.
