NOTE

Sub: Validity of DIPP in tender documents

In connection with the above subject, there is no guidelines available in GCC 2022 regarding the validity period of DIPP certificate for exemption of EMD during the evaluation of tenders by tender committee members.

It is proposed that the tenders where the validity of DIPP certificate is valid on the date of opening of tender should be considered for evaluation. This aspect will be applicable for the all the tenders under finalization on date or already published to be opened in future.

Further, following should be incorporated as special conditions in commercial compliance in all the tender documents to be published in future :

"Any DIPP certificate submitted along with the tender document for exemption of EMD should be valid on the date of opening of the tender, else the tender offer will be summarily rejected".

For kind consideration and approval of competent authority.
