2.0 QUALIFYING REQUIREMENTS OF TENDERERS

2.1 Items reserved to be procured from RDSO/PUs/CORE approved sources: -

- i. The Railway reserves the right to order either the entire or the bulk quantity on the "Approved vendors". Status of approval of tenderer shall be reckoned as on the date of tender opening and not thereafter, unless it is a case of downgrading/ removal/ suspension/ banning.
- ii. The quantities to be ordered on Approved Vendors will be decided considering factors which include past (supply as well as quality) performance, capacity, delivery requirements, quantity under procurement, and nature of item, outstanding order load etc. and the tender conditions.
- iii. (a) Vendors approved for developmental ordering shall be eligible for developmental order of up to 20% of Net Procurable Quantity [NPQ] in regular tenders.

(b) Vendors approved by any centralized vendor approving agencies for developmental orders with condition of prototype approval and/or field trial, may be given developmental order for 5% of Net Procurable Quantity [NPQ] within or outside NPQ.

(b.i) Order on firms approved for developmental ordering subject to prototype approval/field trial can be upto the quantity required for field trial as indicated in the vendor directory provided no such orders has been placed on the firm earlier. Such firms will mandatorily indicate the orders received for the tendered item in the past and supply status against the same with their offer. If the firm has not received

any order, a NIL statement has to be attached. If no document is attached, it will be considered that such order has already been placed on the firm and no further orders will be placed.

(b.ii) If quantity required for field trial is not indicated in the vendor directory, then order quantity on such firms will be limited to 5% of NPQ.

However the total order on developmental firms will be limited to 20% of the NPQ..

- iv. When the vendor approving agency grades vendors under two categories, say, Part I and Part II categories, the developmental order on unapproved/untried firm can be up to 5% of NPQ within or outside NPQ. However, if the vendor approving agency grades vendors only under a single category (i.e. there is no system of approving the firms under two categories, say, Part I and Part II categories), developmental orders can be given upto 20% of NPQ on unapproved/untried firms within the NPQ. This will be subject to the procuring entity being prima-facie satisfied that such firms are capable of executing the order. Such firms must submit their credentials like Machinery & Plant, Testing facilities, QAP, Technical Manpower, Supply performance against earlier orders for same or similar items etc. along with their e-offer. Failure to submit such credentials as stated above will make the offer liable to be ignored. Such developmental order can be placed either after assessment of their capacity and capability by the source approving authority within 6 months of advice from the purchase authority or with the condition that bulk supply will start after approval of prototype by nominated agency as mentioned in the Purchase Order.
- v. Where there are not more than three Indian suppliers categorized as Approved vendor for the tendered item, developmental vendors without any conditional approval can be considered for placement of bulk order without any quantity restrictions. However, while considering such vendors, factors including past performance, capacity, and delivery requirements, quantity under procurement, nature of items, outstanding order load, etc. shall be considered in a transparent manner subject to rates being reasonable. Quantity allocation among eligible vendors shall be based on pre-decided tender criteria. Such orders shall be treated as Bulk Orders.

A Supplier or bidder shall be considered to be from India if (i) the entity is incorporated in India, or (ii) a majority of its shareholding or effective control of the entity is exercised from

India, or (iii) more than 50% of the value of item being supplied has been added in India.

- vi. Where there is no approved vendor for an item, developmental vendors without any conditional approval can be considered for placement of bulk order without any quantity restrictions.

However, while considering such vendors, factors including past performance, capacity, delivery requirements, quantity under procurement, nature of item, outstanding order load etc. shall be considered in a transparent manner, subject to rates being reasonable. Quantity allocation among eligible vendors shall be based on pre-decided tender criteria.

- vii. Authorized dealers/ distributors need to quote with Tender specific authorization from the approved vendors/developmental vendors/Manufacturers failing which offer will be summarily rejected. While issuing such authorizations the approved vendors/developmental vendors/Manufacturers must ensure that these authorized dealers/distributors are in a position to raise inspection requests on IREPS.

2.2 Other Items which are not reserved to be procured from RDSO/PUs/CORE approved sources:-

- i. Bulk order will be placed on the manufacturer or its authorized agent. Purchase Officers can consider such firms for bulk order duly keeping in view the overall performance of the firm.
- ii. All other offers, who are otherwise not eligible for regular bulk order(s) due to their not meeting with the eligibility conditions mentioned in Para 2.2(i) above and provided they are able to demonstrate their Capacity-cum Capability to manufacture the tendered item, can be considered only for developmental order up to 20 percent of the net procurable quantity. For this purpose, they should submit along with their offer, documented past performance reports of same or similar items of equivalent rating or equivalent performance parameters, details of M&P, testing facilities, QAP (if available), technical manpower available with them, registration for same/similar item(s) with other Government agencies or PSUs etc. or any other details as may be warranted as per the technical specification and

drawing. Such tenderers are to note that non submission of such documents as per Annexure shall be taken as their not having any such past performance and/or capacity, and their offer shall be considered further as per extant rules and no back reference in this regard will be made to them.

- iii. The onus of submission of requisite documents (such as copies of Receipt note/IC for stock items, or receipt & acceptance/IC for Non-stock items, or Capacity & capability credential, M&P required for manufacturing tendered item, T&P, Technical manpower, in house testing facilities, MSE credentials etc.) along with their e-offer regarding 'Bulk order' or 'Developmental order' lies with the tenderers. - i) Railway reserves the right to place bulk/regular order on the bidder* having past credentials of successful supply of tendered item to Indian Railways or any Government concern for at least 35% (cumulatively) of tendered quantity during the last three years prior to and up to date of tender closing. 7.3.1 Case of no prior decision to split the order-

However, if it is discovered that the quantity to be ordered is more than what L-1 alone is capable of supplying and there was no prior decision to split the quantities, then the quantity being finally ordered will be distributed among the other tenderers in a manner that will be fair, transparent and equitable. The manner of splitting will take specific note of the following parameters-
 - i.** Past Performance of tenderers
 - ii.** Capacity of tenderers
 - iii.** Delivery requirements in the tender
 - iv.** Quantity under procurement
 - v.** Vital/safety nature of the items
- B.** In the absence of any differentiation on the above parameters, the manner of splitting will be based on the stipulation given in para 7.3.2.1 below.

7.3.2 Case of pre-decided split ordering -

7.3.2.1 Wherever pre-decided split ordering is mentioned in the tender document in advance to have more than one source of supply on account of delivery requirement in tender, past performance and capability of bidders, quantity under procurement and vital/safety nature of items, provision 7.3.2.1(A) to para 7.3.4 shall be applicable.

- (a)** The purchaser reserves the right to distribute the procurable quantity on one or more than one of the eligible tenderers. Zone of consideration of such eligible tenderers will be the right of the Purchaser. The zone of consideration will be a dynamic mix of inter-se position of firms, supply performance of the firms, quantity being procured, criticality of and lead time of supply of the item, number of established suppliers, their capacity etc.
- (b)** Whenever such splitting of the procurable quantity is made, the quantity distribution will depend (in an inverse manner) upon the differential of rates quoted by the tenderers (other aspects i.e. adequate capacity-cum-capability, satisfactory past performance of the tenderers, outstanding orders load for the Railway making the procurement, quoted delivery schedule vis-à-vis the delivery schedule incorporated in the tender enquiry

etc. being same/similar) in the manner detailed in the table below.

Price differential between L-1 and L-2	Quantity distribution ratio between L-1 and L-2
Up to 3%	60:40
More than 3% and up to 5%	65:35
More than 5%	At least 65 % on the L1 tenderer, for the quantity to be ordered on L-2 tenderer, TC / TAA shall decide.

- i. In the phrase 'differential rates quoted by the tenderers', the quoted rate would mean when no price negotiation has been called for, the original rates as obtained at the time of tender opening. However, the rate of the highest eligible tenderer within the zone of consideration has to be per-se reasonable.
 - ii. When price negotiation has been called for, the reference L-1 rate for assessment of ratio will be the original rate of L-1 firm (suitable for bulk quantity)-say firm "A"-as obtained at the time of tender opening.
- (c) If splitting of quantity is required to be done by ordering on tenderers higher than the L2 tenderer, then the quantity distribution proportion amongst the tenderers will be decided by transparent/logical/equity-based extrapolation of the model as indicated in the above para.
- (d) There could be a situation when between the lowest eligible tenderer considered suitable for bulk qty (L-1 firm "A") and another tenderer considered suitable for bulk quantity order (say L-4), there are tenderers who are considered suitable only for part quantity. But there are two tenderers in between who are suitable for part quantity, i.e., are approved for developmental tenders/Pt-II. In such cases, L-1 should be given its proportion based on its rate differential with respect to L-4 (say by this L-1 gets 65% of NPQ). The balance quantity (say 35 % of NPQ) is to be distributed among other eligible tenderers. The balance quantity is to be distributed as follows.
- (1) L-2 and L-3 shall be allocated within the overall ceiling of 15%/ 20%/ 25% (of 35% of NPQ)
 - (2) And the balance quantity shall be allocated to L-4 tenderer.

However, for ratio/ proportion of quantity distribution among such agreement partners, conditions as detailed in Para 7.3.2.1(B) shall apply with the exception that the aspect of 'per-se reasonability' will not be applicable.

7.3.4 In the cases of inadequate capacity-cum-capability, dissatisfactory past performance large quantity of outstanding orders (liquidation of which will take very long time) etc., the Purchaser shall have the right to distribute the procurable quantity amongst tenderers with due consideration to these constraints and in such a manner that would ensure timely supply of materials in requisite quantity to meet the needs of operation, maintenance, safety etc. of the Railways, regarding of inter-se ranking of the tenderers and in a fair and transparent manner with due conformity to the Principles of Natural Justice and Equity.

18.0 Fall Clause -

18.1 Fall Clause shall be applicable only in Rate Contracts & as under-

1. The price charged for the stores supplied under the Contract by the contractor shall in no event exceed the lowest price at which the contractor sells the stores or offer to sell stores of identical description to any persons/organizations including the purchaser or any Department of Central Government or any Railway Office or any Railway undertaking, as the case may be, during currency of the contract. The lower price will be applicable to supplies made after the date of coming into force of such reduction or sale or offer to sell at a reduced rate.
2. If at any time during the said period the contractor reduces the sale price, sells or offers to sell such stores to any persons, organizations including the purchaser or any Department of Central Government or any Railway Office or any Railway Undertaking as the case may be at a price lower than the price chargeable under the contract, they shall forthwith notify such reduction or sale or offer of sale to the purchaser and the price payable under the contract for the stores supplied after the date of coming into force of such reduction or sale or offer of sale, shall stand correspondingly reduced.
3. The Contractor shall furnish the following certificate to the concerned Accounts Officer along with each bill for payment of supplies made against the contract.

19.0 Rejected Material

- 19.1** Materials peculiar to railways such as parts and fittings of rolling stock except raw materials, which have been rejected during inspection and which could not be rectified are required to be defaced by the inspecting authority to avoid recycling of such rejected materials, and to avoid ultimate failures of assets. All such rejected materials peculiar to railways should be mechanically defaced to prevent sale to railways again.

19.2 Franking Clause on Acceptance and Rejection

The issue of this inspection/rejection report does not acquiesce or condone the late delivery and does not intend or amount to an extension of the delivery period or keeping the contract alive. The goods are being passed/rejected without prejudice to the rights of the buyer under the terms and conditions of the contract.

20.0 Marking of Store

Contractor/Manufacturer must inscribe/engrave/screen-print/emboss vendor's name/identification marks as well as month and year of manufacture on item supplied to Northern Railway as per the relevant drawing/specification/description. In case it is not stipulated in the drawing/specification/description, then the location of these identification should be such that they do not affect the functional utility and structural stability of the components/ materials, and also do not get obliterated on wear and tear.

For very small items where marking on individual item is not possible, the vendor will arrange to print Vendor's name/identification marks as well as month and year of manufacture on standard packing, after obtaining specific approval from the purchaser in each case. The decision of the purchaser on whether such approval is to be granted or not shall be final and binding.

21.0 Packing Instructions

- 21.1** Notwithstanding any packing condition stipulated in the tender documents or in the tendered drawings/specifications, it shall be the responsibility of the Contractor to appropriately pack the stores so that they are received by the consignee at destination without any loss, destruction, damage or deterioration due to any cause whatsoever.
- 21.2** The supplier will submit the packing list for each consignment truck-wise and paste/print/paint labels on individual items mentioning the item description and reference as mentioned in packing list to facilitate ease of receipt and accountal at depot.
- 21.3** Wherever feasible, supplier will pack items set-wise to facilitate receipt and accountal of materials. As far as possible, packing should be done in such a way that it will facilitate easy stacking and vertical space utilization.
- 21.4** All suppliers shall ensure that the supplies including packing materials must comply Plastic Waste Management Rules 2016 and amendments thereof.

22.0 Warranty/Guarantee

Warranty clauses as per IRS Conditions of Contract or as specified in tender schedule will be applicable.

In case, there is a discrepancy regarding warranty period mentioned in specification/description and standard warranty clause as per IRS condition of contract, then warranty period mentioned in specification/description shall prevail.

23.0 Handling of rejection of pre-inspected item and warranty rejection:
[Authority Railway Board's letter Nos. 2022/RS(G)/779/7(3390005) dated 17.10.2022, 29.11.2022 & 26.12.2022.]

Two kinds of rejection occur in case of pre-inspected supplies made by vendor.

23.1 Pre-inspected material rejected by consignee at the time of receipt:

- (i) In case of rejection of pre-inspected goods at consignee end, the material rejection advice/rejection memo should be sent by consignee to all concerned i.e. firm, purchaser, pre-inspecting agency, paying authority as per the contract etc. without fail.
- (ii) Financial recovery: In case payment has been made to the firm for the material, the concerned paying authority as per contract should note the rejection advice details in its recovery register for effecting recovery of payment made, as the case may be.
- (iii) If the firm desires to have joint inspection, joint inspection of rejected material will held with pre-inspecting agency and the time. In case of failure of either of the two parties to associate with joint inspection, the joint inspection should be held by the consignee with whichever of the two parties comes for joint inspection. Irrespective of whether the party(ies) attend joint inspection or not, the modality of joint inspection etc will have to be completed within 21 days of communication of rejection advice to the supplier (in line with IRS Condition of Contract clause 703). For imported material, the time limit will be 45 days.
- (iv) Firm may be permitted to collect the rejected goods only after the firm has deposited the payments already made by Railway (if any) to the firm or equivalent amount has been recovered for this purpose.
- (v) In case of replacement supply against the rejected goods, the same should be pre-inspected by same pre-inspecting agency who passed the material earlier. In line with IRS Conditions of Contract clause 703, no inspection charge will be paid by Railway to the inspection agency for the replacement supply.

- (vi) However, in case of component level rejection in an pre-inspected item (which is an assembly) the replacement supply of that component can be accepted based on firm's internal inspection certificate/guarantee certificate and final inspection by consignee.

23.2 Material rejected in warranty:

23.2(i) Materials are rejected in warranty in the following situations:

- (a) The material rejected was issued to the user (shop/shed etc.) from its associate stores depot.
- (b) The material rejected was received by the user from a PU or from a stores depot which is not the associate stores depot of the user.

Cat 23.2(i)(a)

For warranty failure in shop/shed of material issued from its associate stores depot: All warranty claims will be lodged by the associate depot officer after getting the warranty rejected material from user under advice note of return stores with reasons of warranty rejection indicated therein. Before lodging the warranty claim the associate depot officer will satisfy himself about the correctness of PO and ensure that other details including reason(s) of warranty rejection are available with the advice note of return stores. The warranty claim will be processed following procedure indicated in sub-para 23.1 (i), (ii), (iii) and(iv) of para 23.0 above except for the following changes: The 'rejection advice mentioned in para 23.1(i) will be replaced by the 'warranty rejection advice'. The time which can be taken for the completion of modality of joint inspection as per para 23.1(iii) will be 45 days (instead on 21 days) from the date of communication of rejection advice to the supplier. More time is being given for joint inspection because this is a case wherein supplies have already been taken into the use system of Railways. Thus, either the pre-inspection agency or the firm or the Railways may like to have a more detailed understanding of the failure.

Cat 23.2(i)(b)

For Warranty failure in shop/shed of material received from PU (either under sale issue note or as a purchased component of rolling stock manufactured at the PU) or from a stores depot (under inter depot transfer/sale issue note) which is not the associate stores depot of the end user.

- (i) In such cases it may not be convenient for the end user to return the material to the stores depot (against which the original supply was made by the vendor to Railway). Thus in all such cases, the warranty rejected material will be kept in safe custody by the end user and the stores depot(which received the original supply) will be advised by the end user

about the warranty rejection duly indicating the reason(s) of rejection with a confirmation that the rejected material is under end user's custody.

- (ii) The stores depot (which received the original supply) will raise warranty claim on the firm. Before lodging the warranty claim, the depot officer will satisfy himself about the correctness of PO and ensure that other details including reason(s) of warranty rejection are available from the end user. The warranty claim will be processed following procedure indicated in sub-para 23.1 (i), (ii), (iii) and (iv) of para 23.0 above except for the following changes: The 'rejection advice' mentioned in para 23.1(i) will be replaced by the 'warranty rejection advice'. The time which can be taken for the completion of modality of joint inspection as per Para 23.1(iii) will be 45 days (instead of 21 days) from the date of communication of rejection advice to the supplier. More time is being given for joint inspection because this is a case wherein supplies have already been taken into the usage system of Railways. Thus, either the pre-inspection agency or the firm or the Railways may like to have a more detailed understanding of the failure.

For imported material or the consignment, the time limit in 23.2(i)(a) and 23.2(i)(b) (ii) will be 90 days instead of 45 days.

23.2(ii) Warranty quantity replacement:

The warranty quantity replacement will be accounted under warranty R-note by the depot officer (which raised the warranty claim as in sub-para 23.2(i)(a) above).

Financial recovery (if any made) against the warranty failure will be refunded to the firm on warranty quantity replacement.

23.2 (iii) Inspection of the replacement supply against warranty rejection:

- (A) For cases of replacement supply against warranty failure falling in the category 23.2(i)(a) above, the replacement supply should normally be inspected by the same inspection agency which inspected and passed original supply. Thus for 23.2(i)(a), any change in inspecting authority for the warranty replacement will necessitate a formal amendment in contract.
- (B) In case of warranty rejection of item of the 23.2(i)(b) above, it may in some cases be difficult to re-use the services of inspecting agency which passed the original supply. Similarly for some items, the end user/consignee may not have the requisite inspection facility/expertise.

Thus for warranty rejection falling under the clause 23.2(i)(b):

- (i) The replacement supply can be inspected by the same inspecting agency which inspected and passed the original supply. Payment of inspection charges will be borne by supplier.

OR

The replacement supply can be inspected by authorized representative of consignee.

OR

The replacement supply can be made by firms own internal inspection certificate.

- (ii) The decision on the above will rest with the depot officer who raised the warranty claim and will be indicated in the warranty claim notice.
- (C) However, in case the warranty failure is of a component of an assembly supplied, the component can be accepted on firm's own Guarantee Certificate/internal inspection certificate and consignee's final inspection under both the clauses 23.2(i)(a) and 23.2(i)(b) of warranty failure.

23.2(iv) Place of warranty replacement- For warranty replacement of cases under clause 23.2(i)(a), in order to ensure correct accountal of warranty replacement, the place of warranty replacement will be the depot which received the original supply. For warranty replacement of failure falling under clause 23.2(i)(b) above, an exemption can be made and the place of replacement supply can be indicated by the depot officer (at his option) in the warranty claim notice to the firm to be the end-user's place.

23.2(v) For warranty replacement of the para 23.2(i)(b), due care will be taken by the end user to ensure that accountal of replacement supply etc. are properly taken care of. After settlement of warranty claim the rejected material will be handed over by the end user to the firm's representative. The end user will also inform the depot officer who raised warranty claim about the replacement.

23.3 At the option of the depot officer/end-user, rectification of the material rejected (under clause 23.1 and 23.2) may be permitted within railway premises by the firm only after the firm has refunded the payment (if already made by Railway) or equivalent amount has been withheld for this purpose. However, from the date of communication of rejection, the rectification activity has to be completed within 21/45 days for indigenous/imported material respectively for the rejection of the category

23.2. If more time is taken beyond this, applicable ground rent will be levied on the firm.

- 23.4** In order that quantity shortfall due to warranty failure of clause 23.2(i)(a) is made up, the depot officer may prepare an additional demand (equal to the quantity failed in warranty) for procurement, once recovery towards warranty has been confirmed by Accounts. Any warranty replacement subsequently made will automatically get reflected in stock and thus there will not be any net extra procurement. It will however ensure timely availability of materials.

OFFICE MEMORANDUM

Subject: Guidelines on Debarment of firms from Bidding.

1. Attention is drawn towards Rule 151 of General Financial Rules (GFRs), 2017 regarding 'Debarment from Bidding' which is reproduced as under:
 - (i) A bidder shall be debarred if he has been convicted of an offence-
 - (a) under the Prevention of Corruption Act, 1988; or
 - (b) the Indian Penal Code or any other law for the time being in force, for causing any loss of life or property or causing a threat to public health as part of execution of a public procurement contract.
 - (ii) A bidder debarred under sub-section (i) or any successor of the bidder shall not be eligible to participate in a procurement process of any procuring entity for a period not exceeding three years commencing from the date of debarment. Department of Commerce (DGS&D) will maintain such list which will also be displayed on the website of DGS&D as well as Central Public Procurement Portal.
 - (iii) A procuring entity may debar a bidder or any of its successors, from participating in any procurement process undertaken by it, for a period not exceeding two years, if it determines that the bidder has breached the code of integrity. The Ministry/Department will maintain such list which will also be displayed on their website.
 - (iv) The bidder shall not be debarred unless such bidder has been given a reasonable opportunity to represent against such debarment.
2. This department has received a reference from Department of Commerce with a proposal that the task of universal banning of firms as per Rule 151 (ii) of GFRs as above may be undertaken by Department of Expenditure or should be decentralized to individual line Ministries/Departments as DGS&D had been wind up on 31.10.2017. Central Public Procurement Portal (CPPP) or the Department of Expenditure can then maintain a

master data of all such banned firms and it can be made available in public domain.

3. In context of above, all issues regarding debarment have been reviewed in consultations with major procuring Ministries/Departments and it is decided to issue attached '**Debarment Guidelines**' in suppression to all earlier instructions on this subject.

Guidelines on Debarment of firms from Bidding

1. The Guidelines are classified under following two types:
 - (i) In cases where debarment is proposed to be limited to a single Ministry, the appropriate Orders can be issued by that Ministry itself, thereby banning all its business dealing with the debarred firm.
 - (ii) Where it is proposed to extend the debarment beyond the jurisdiction of the particular Ministry i.e. covering to all central Ministries/Departments, the requisite Orders shall be issued by Department of Expenditure (DoE), Ministry of Finance (MOF).

Definitions

2. Firm: The term 'firm' or 'bidder' has the same meaning for the purpose of these Guidelines, which includes an individual or person, a company, a cooperative society, a Hindu undivided family and an association or body of persons, whether incorporated or not, engaged in trade or business.
3. Allied firm: All concerns which come within the sphere of effective influence of the debarred firms shall be treated as allied firms. In determining this, the following factors may be taken into consideration:
 - a. Whether the management is common;
 - b. Majority interest in the management is held by the partners or directors of banned/suspended firm;
 - c. Substantial or majority shares are owned by the banned/suspended firm and by virtue of this it has a controlling voice.
 - d. Directly or indirectly controls, or is controlled by or is under common control with another bidder.
 - e. All successor firms will also be considered as allied firms.
4. The terms "banning of firm", 'suspension' 'Black-Listing' etc. convey the same meaning as a "Debarment".

Debarment by a Single Ministry/ Department

5. Orders for Debarment of a firm(s) shall be passed by a Ministry/ Department/ organizations, keeping in view of the following:

- a. A bidder or any of its successors may be debarred from participating in any procurement process for a period not exceeding two years.
 - b. Firms will be debarred if it is determined that the bidder has breached the code of integrity as per Rule 175 of GFRs 2017.
 - c. A bidder can also be debarred for any actions or omissions by the bidder other than violation of code of integrity, which in the opinion of the Ministry/Department, warrants debarment, for the reasons like supply of sub-standard material, non-supply of material, abandonment of works, sub-standard quality of works, failure to abide "Bid Securing Declaration" etc.
 - d. It shall not be circulated to other Ministries/Departments. It will only be applicable to all the attached/subordinate offices, Autonomous bodies, Central Public Sector Undertakings (CPSUs) etc. of the Ministry/Department issuing the debarment Order.
 - e. The concerned Ministry/Department before issuing the debarment order against a firm must ensure that reasonable opportunity has been given to the concerned firm to represent against such debarment (including personal hearing, if requested by firm).
 - f. Secretary of Ministry/Department may nominate an officer at the rank of Joint Secretary/Additional Secretary as competent authority to debar the firms.
 - g. Ministry/Department that issued the order of debarment can also issue an Order for revocation of debarment before the period of debarment is over, if there is adequate justification for the same. Ordinarily, the revocation of the Order before expiry of debarred period should be done with the approval of Secretary concerned of Ministry/Department.
 - h. The Ministry/Department will maintain list of debarred firms, which will also be displayed on its website.
 - i. Debarment is an executive function and should not be allocated to Vigilance Department.
6. Code of Integrity as contained in Rule 175 of the GFRs is reproduced as under:

No official procuring entity or a bidder shall act in contravention of the codes which includes

(i) prohibition of

- (a) making offer, solicitation or acceptance of bribe, reward or gift or any material benefit, either directly or indirectly, in exchange for an unfair advantage in the procurement process or to otherwise influence the procurement process.
- (b) any omission or misrepresentation that may mislead or attempt to mislead so that financial or other benefit may be obtained or an obligation avoided.

- (c) any collusion, bid rigging or anticompetitive behavior that may impair the transparency, fairness and the progress of the procurement process.
 - (d) improper use of information provided by the procuring entity to the bidder with an intent to gain unfair advantage in the procurement process or for personal gain.
 - (e) any financial or business transactions between the bidder and any official of the procuring entity related to tender or execution process of contract; which can affect the decision of the procuring entity directly or indirectly.
 - (f) any coercion or any threat to impair or harm, directly or indirectly, any party or its property to influence the procurement process.
 - (g) obstruction of any investigation or auditing of a procurement process.
 - (h) making false declaration or providing false information for participation in a tender process or to secure a contract.
- (ii) Disclosure of conflict of interest.
- (iii) Disclosure by the bidder of any previous transgressions made in respect of the provisions of sub-clause (i) with any entity in any country during the last three years or of being debarred by any other procuring entity.
7. It is possible that the firm may be debarred concurrently by more than one Ministry/Department.
8. Ministries/Department at their option may also delegate powers to debar bidders to their CPSUs, Attached Offices/Autonomous Bodies etc. In such cases, broad principles for debarment in para 5 as above are to be kept in mind. Debarment by such bodies like CPSUs etc. shall be applicable only for the procurements made by such bodies.
9. Similarly, Government e-Marketplace (GeM) can also debar bidders up to two years on its portal.
10. In case of debarments under para 8 as above, revocation the debarment orders before expiry of debarred period should be done only the approval of Chief Executive Officer of concerned CPSUs etc.

Debarment across All Ministries/Departments

11. Where a Ministry/Department is of the view that business dealings with a particular firm should be banned across all the Ministries/ Departments by debarring the firm from taking part in any bidding procedure floated by the Central Government Ministries/ Departments, the Ministry/Department concerned, should after obtaining the approval of the Secretary concerned, forward to DoE a self-contained note setting out all the facts of the case

and the justification for the proposed debarment, along with all the relevant papers and documents. DoE will issue the necessary orders after satisfying itself that proposed debarment across all the Ministries/Departments is in accordance with rule 151 of GFRs, 2017. This scrutiny is intended to ensure uniformity of treatment in all cases.

12. The firm will remain in suspension mode (i.e. debarred) during the interim period till the final decision taken by DoE, only in the Ministry/Department forwarding such proposal.
13. Ministry/Department before forwarding the proposal to DoE must ensure that reasonable opportunity has been given to the concerned firm to represent against such debarment (including personal hearing, if requested by firm). If DoE realizes that sufficient opportunity has not be given to the firm to represent against the debarment, such debarment requests received from Ministries/Departments shall be rejected.
14. DoE can also give additional opportunity, at their option, to firm to represent against proposed debarment. DoE can also take suo-moto action to debar the firms in certain circumstances.
15. No contract of any kind whatsoever shall be placed on the debarred firm, including its allied firms by any Ministries/Departments/Attached/Subordinate offices of the Government of India including autonomous body, CPSUs etc. after the issue of debarment order.
