The Quantity Details Summary:-

Item Description	Total Pump	Duration	Years	Quantity
NS-1	30	4	2	240
NS-2	15	4	2	120

1. Any deviation from the above-mentioned locations shall require prior approval of the Sr. DEN/DEN before changing the locations.
2. In case of any positive variation in quantity, prior approval of the Sr. DEN/DEN shall be obtained.

1. The work shall be carried out as per the instructions of the concerned Sectional SSE (P-Way) and ADEN with the contractor's own labour, materials, tools, and plants (T&P).
2. The diesel pump hired from the contractor must be in good working condition and free from any defects.
3. In the event of failure of the diesel pump, the contractor shall immediately replace it with another pump in working condition. If the contractor fails to replace the diesel pump, a penalty of ₹5,000/- per day shall be recovered from the contractor's bill, and no payment shall be made for that day. The decision of the concerned Sectional SSE (P-Way) and ADEN in this regard shall be final and binding.
4. The diesel pump operator shall be made available at site round the clock. In case of absence of the operator for more than one hour, a penalty of ₹500/- per hour shall be recovered from the contractor's bill. The decision of the concerned Sectional SSE (P-Way) and ADEN in this regard shall be final and binding.
5. The completion period shall be as specified in the contract from the date of commencement of work after acceptance of the work. The date of commencement shall be advised by the Railway representative as per requirement after acceptance of work.
6. Railway reserves the right to reject any or all tenders without assigning any reason thereof.
7. In the event of any dispute, the decision of the Sr. DEN/DEN shall be final and binding on all parties.
8. Rates quoted by the contractor shall be inclusive of all taxes, tools and plants, labour, and all other applicable charges.
9. Rates should be quoted both in figures and in words.
10. The diesel pump operator must possess a mobile phone, and the mobile number shall be made available to the concerned Sectional SSE (P-Way), ADEN, and Sr. DEN/DEN. No additional payment shall be made for this.
11. If, upon being called, the submersible pump operator does not respond, payment for that day shall be deducted from the contractor's bill.
12. The pump supplied must be capable of draining out water, sludge, mud, and similar contents from the drain.
13. Electricity, if available, may be provided free of cost by Railways. However, the switchboard and other accessories shall be arranged by the contractor. If Railway electricity source is not available, the same shall be arranged by the contractor at his own cost.
14. The diesel pump may be required to be shifted, as and when required by Railways, to locations specified by the Site Engineer, such as various RUB locations under Bhavnagar Division, at the contractor's own cost.
15. Rain water shall be drained out as per the directions of the concerned Sectional SSE (P-Way) and ADEN.
