Sub: Adoption of List of Preferred Make(s) / Brands of Material for use in Civil Engineering Works over North Western Railway.

For achieving desired quality in Civil Engineering Works, material of reputed Makes/Brands are required to be used, as specifications alone may not be sufficient to ensure appropriate standard of work.

Accordingly, a List of Preferred Make(s)/Brands of Material is issued herewith covering 104 categories of material attached at Annexure-I.

In case of Makes/Brands from preferred list are not available, other reputed Makes/Brands confirming to BIS in all respects and equivalent aesthetic appearance and life expectancy may be used with approval of Sr.DEN/Co in Division and Project In charge (CE/Const. or CPM) in construction Organization/RSP as the case may be.

Care Should be taken while approving additional Makes/Brands that rate of the brand being approved shall not be much lower in comparison to the Makes/Brands listed in the preferred list for the same item. A copy of approval letter should be marked to open line Head quarter, so that same can be included in next review.

The preferred list will be reviewed not later than six month(s) for addition/ deletion of Makes/Brands as per the recommendation/ suggestions from the field units.

If performance of any material from the preferred list of Makes/Brands is found unsatisfactory, the field units should report it to open line Headquarter for review.

This has approval of PCE/NWR.
