Sub: LAW Proposal for 2025-26 -Reg.

Ref: Letter No.HQ0ENGG(TCP)/3/2021 dated 17.06.25.

Proposal 2

SEJ renewal at SSE PW SRR section

Sl. No.	Station	Location	SEJ No.	Justification
1	OTP	566/664	1A DN	<p>At present, the improved SEJs (Single Gap and Double Gap) are experiencing increased incidences of IMR (Immediate Maintenance Requirements) and are not providing the desired riding quality. This has resulted in higher maintenance efforts and compromised track performance.</p> <p>To address these issues, it is proposed to renew the existing SEJs with Thick Web SEJs, which offer enhanced structural strength and stability.</p>
