

NWR Tender Document

SECTION-I**INSTRUCTIONS TO THE TENDERERS (E-TENDER)****1.0 General:**

- 1.1 The Principal Chief Materials Manager, North Western Railway on behalf of the President of India, duly authorized, invites e-bids from established and reliable manufactures or their authorized dealers/authorized agents for the supply of the items as set forth in the “Schedule of Requirements”. The price should be quoted in Indian Rupees.
- 1.2 Tenderers are advised to carefully read all the Instructions, the General and Special Conditions of tender, and Indian Railway Standard (IRS) Conditions of Contract, before submitting their e-bids. By submission of e-bids along with declaration signed digitally, it will be presumed that the tenderer has read, understood and accepted all the conditions of the tender document and those referred therein and undertake to abide by the same.
- 1.3 Your digital signature on the E-Tender form will be considered as your confirmation that you have read and accepted all the conditions laid down in the E-tender documents referred in para 1.2 above as well as schedule of tender, consisting of Techno-Commercial offer Form (including special conditions attached to E-Tender) and Financial offer Form, unless specific deviation is quoted in the Techno- Commercial offer form.
- 1.4 All mandatory field marked with (*) have to be filled in by bidders.
- 1.5 Firms which are not registered on IREPS may refer to Annexure -I in which details of registration procedure on IREPS site are mentioned. They are also advised to refer Annexure -II in which procedure for obtaining CLAS-III digital signature is indicated. Manual offers sent by post/Fax or in person shall not be accepted against such E-tenders even if these are submitted on the Firms letter head and received in time. All such manual offers shall be considered as INVALID offers and shall be rejected summarily without any consideration
- 1.6 The tenderers must fill in the techno-commercial offer form (consisting of eligibility criteria, terms & conditions, performance statement, deviation statement, check list & special conditions etc.), financial offer form and attach scanned copy of all the documents needed as per **Annexures given in this document.**
- 1.7 All the mandatory fields of the Techno-commercial Offer Form and Financial Offer Form (i.e. Rate page) including basic rate, all taxes & duties (including maximum percentage of GST or any other taxes/duties which may become applicable during the currency of Contract), freight and any other charges shall have to be filled up by the vendor. The unit of rate shall be as indicated in the tender schedule and cannot be changed or altered by the vender. Thereafter, all inclusive unit rates on FOR destination basis shall be automatically calculated by the system and shown to the vendor before submission of offer.

Important Note:

All tenderers should note carefully that the entries for rate, taxes & duties, freight and any other levy shall have to be made by them only in the relevant fields as provided in the financial offer form. In case, any entry made by tenderer outside the relevant field, same shall be ignored by the system while

evaluating the offers for the reason that the comparative statement is prepared automatically by the system on the basis of the entries as made by tenderer in the relevant & respective field only. This computer generated comparative statement forms the basis for evaluation of offers, deciding the inter-se ranking of offers and further deciding the tender accordingly. For example, if freight charges are mentioned extra and are not quantified in exact amount in the appropriate column/field, then freight charges shall be taken as nil in the comparative statement prepared automatically by the E-Procurement System. Similarly if the GST, packing charges, forwarding charges etc. are not quantified in exact %age, then these elements like taxes/duties etc. shall also be taken as nil by the system in the comparative statement prepared automatically by the EPS system. It is therefore, in the interest of the vendors to enter the exact

%age or Amount in the relevant fields in the financial offer form, failing which any entry made by the tenderer outside the relevant field shall be ignored and considered the same with impact as nil while deciding the inter-se ranking of the offers irrespective of the fact whether the tenderer has mentioned specific rates at some other place in its offer instead of the nominated field. Therefore, it is quite essential for the vendor to note that the entries for rate, taxes/duties, freight and any other levy should not be made anywhere else except in the appropriate field/column provided in the financial offer form.

- 1.8 Tenderer should note that, if any column/field is left blank either in Techno- Commercial Offer Form or Financial Offer Form by them in Electronic Tender SOR, etc, both in respect of technical as well as commercial matters, then it will be treated as NIL deviation by NWR and thereafter no change in those parameters will be accepted/permitted by NWR.
- 1.9 Tender documents are not transferable and their cost if any is not refundable and the same is to be submitted with digital signatures by the pre-authorized personnel of the vendor, already registered with the site.
- 1.10 In case of any contradiction in the terms and conditions appearing in IRS Conditions of Contract and General/Special conditions specified in the tender documents, the latter will prevail.

1.2.1.1 Ordering on the vendors Assessed/Developed /Approved by RDSO

- i) Status to be taken as on tender opening date: The status of the vendor (i.e. approved or developmental vendor) shall be reckoned as on the date of tender opening and not thereafter. However, cases of downgrading/ removal/ suspension/ banning etc., after opening of tender, shall be taken into account while considering the offers.
- ii) Orders on developmental vendors shall be developmental orders and treated as such, specifically, with regard to applicability of liquidated damages for delayed supplies and levy of general damages.

- (b) Approved Vendors shall be eligible for bulk order, as per predefined tender conditions.

Quantity allocation among eligible vendors shall be based on pre decided tender criteria. Such orders shall be treated as bulk orders.

- (d) Where there is no approved vendor for an item, developmental vendors can be considered for placement of bulk order without any quantity restrictions. However, while considering such vendors, factors including past performance, capacity, delivery requirements, quantity under procurement, nature of item, outstanding order load etc. shall be considered in a transparent manner, subject to rates being reasonable. Quantity allocation among eligible vendors shall be based on pre decided tender criteria.

(iv) If the works address indicated in the offer is different from what is indicated in the approval certificate issued by the respective vendor approval agency, then such offer will be treated as if the same has been received from an unapproved source.

1.2.1.2 Splitting of Tendered Quantity:

Orders on developmental vendors shall be developmental orders and shall not amount to splitting. Splitting of quantity for bulk order shall be governed by instructions as contained in letter no. 99/RS(G)/779/2 pt. dated 11/02/2016.

- i) The present system of inspection of supplies from RDSO approved vendors shall continue.
- ii) RDSO shall continue to do prototype inspection of the items supplied by developmental vendors. The balance supplies executed by the developmental vendors after clearance of prototype by RDSO can be inspected by any agency as decided by the purchaser.

OR

1.2.2 For Items reserved to be procured from BLW/DMW/ICF/RCF/CLW/CORE/PU.

- 1.2.4 Vendors approved by RDSO under different categories (approved for bulk quantity, approved for developmental orders and developmental orders with limited quantity). (i) If different plants/manufacturing units of a firm are approved by RDSO under different categories (i.e. approved for bulk quantity, approved for developmental orders and developmental orders with limited quantity), the firm must mention the plant/manufacturing unit from where they will supply the material. In case, nothing is mentioned by the firm, it will be presumed that the firm will supply the material from the plant approved by RDSO for a higher category without making any back reference to the firm. Address for inspection of the material will be mentioned in the PO accordingly. (ii) If a firm quotes different rates without mentioning the corresponding plants from where intend supply the material then it will be presumed that the firm will supply at the lower rate from their plant approved by RDSO for higher category.

NOTE: it may be specifically be noted that approval of vendor as approved vendor only signifies its technical capability to supply the item for which, it has been approved/registered and it is quite likely that such vendors differ in terms of capacity, past performance etc. The quantity to be ordered on approved vendors therefore will be decided on the basis of various factors which includes past performance, capacity, delivery requirements, quantity under procurement, nature of item, outstanding order load etc.

In all cases, clause 0600 of the IRS Conditions of Contract will have the over-riding effect

4.5 The tenderers should quote the delivery period / delivery schedule carefully, because the time and date for the delivery of stores shall be the essence of the contract and delivery must be completed no later than the date / period so specified.

4.6 Severable contract & Delivery Schedule:

- (ii) The tenderer /supplier should note that failure on part of supplier to complete supplies

of each installment within specified period or within specified date indicated in PO (which will be placed only on severable contract basis with separate delivery period for each installment), shall be treated as a breach of contract on part of supplier & in such situation Purchaser shall have all rights to take all necessary penal actions (for that installment quantity whose delivery period expired but supplies not made by the supplier) against the supplier as per terms and conditions of the contract.

5.0 LD Clause: In cases of delays of contractual delivery full LD will be levied as below

9.0 Evaluation of the Offers:

- 9.1** Tenderers are advised to refer to important note under Para 1.7 of section I of this document i.e. instructions to tenderers for filling up of rates, taxes, duties, freight charges and other levies in the financial offer form. Evaluation of offers shall be made on the basis of the comparative statement generated by the EPS system.
- 9.2** Tenders may note that for evaluating the offers to decide inter-se position of the bidders, in case of multi item or single item with multi consignee, the inter-se ranking would be decided item wise and consignee wise as per the total unit rate (i.e. all inclusive rate per unit) until and unless it is otherwise specified in the SOR. Normally NW Railway will prefer to take delivery of materials at the place of respective consignee as specified in bid conditions. However in exceptional circumstances NW Railway may consider delivery of materials at other consignees also as per the merit of the case.
- 9.3** Tenderer should quote clear offer with unconditional discount, if any and the system shall evaluate the bid on FOR/Destination basis and shall show up to the vendor before submitting e- bid. Conditional discounts attached to early payment and early receipt note shall not be considered and such offers shall be ignored. Conditional discount attached to quantity, if any is to be submitted as alternate offer and tenderer should submit multiple alternate offers in such cases.

10.0 Splitting of tendered quantity: Whenever splitting condition is applicable same will be mentioned in electronic Schedule of Requirement (SOR):

Case of no prior decision to split the order-

10.1 Normally full order should be placed on L-1 firm. However, if after due processing, it is discovered that the quantity to be ordered is more than what L-1 alone is capable of supplying and there was no prior decision to split the quantities, then this aspect should be recorded in TC minutes/ acceptance in direct acceptance cases. The quantity being finally ordered will be distributed among the other bidders in a manner that will be fair, transparent and equitable. The manner of splitting will take specific note of the following parameters:-

- (i) Past Performance of bidders.
- (ii) Capacity of bidders.
- (iii) Delivery requirements in the tender.
- (iv) Quantity under procurement.
- (v) Vital/Safety nature of the items.

10.1.2 In the absence of any differentiation on the above parameters, the manner of splitting will be based on the stipulation given in Para 10.2.2 below

10.2 Case of pre-decided split ordering-

10.2.1 Railway may decide in advance to have more than one source of supply on account of delivery requirement in tender, past performance and capability of bidders, quantity under procurement and vital/safety nature of items. This splitting will however will be subjected to Govt. of India Policy regarding MSME & "Make in India" mentioned in clause no 4 and 5.2 in section I of NWR tender conditions.

10.2.2 Following provisions (10.2.2(A) to 10.4) shall be applicable in all such cases of pre-decided split ordering:-

| | |
|--------------------------------------|---|
| | |
| Price difference between L-1 and L-2 | Quantity distribution ratio between L 1 and L 2 |
| Up to 3% | 60:40 |

| | |
|---------------------------|---|
| More than 3% and up to 5% | 65:35 |
| More than 5% | At least 65% on the L-1 tenderer. For the quantity to be ordered on the L-2 tenderer, TC/TAA shall decide |

- (A) The purchaser reserves the right to distribute the procurable quantity on one or more than one of the eligible tenderers. Zone of consideration of such eligible tenderers will be the right of the Purchaser. The zone of consideration will be a dynamic mix of inter-se position of firms, supply performance of the firms, quantity being procured, criticality of and lead time of supply of the item, number of established suppliers, their capacity etc.
- (B) Whenever such splitting of the procurable quantity is made, the quantity distribution will depend (in an inverse manner) upon the differential of rates quoted by the tenderers (other aspects i.e. adequate capacity - cum-capability, satisfactory past performance of the tenderers, outstanding order load for the Railway making the procurement, quoted delivery schedule viz-a-viz the delivery schedule incorporated in the tender enquire etc. being same/similar) in the manner detailed in the table below”.

In the phrase 'differential rates quoted by the tenderers', the quoted rate would mean-

- (i) When no price negotiation has been called for, the original rates as obtained at the time of tender opening. However, the rate of the highest eligible tenderer within the zone of consideration has to be per se reasonable.
- (ii) When price negotiation has been called for, the reference L-1 rate for assessment of ratio will be the original rate of L-1 firm (suitable for bulk quantity)- say firm "A" - as. Obtained at the time of tender opening.

B(I) If splitting of quantity is required to be done by ordering on tenderers higher than the L-2 tenderer, then the quantity distribution proportion amongst the tenderers will be decided by transparent/logical /equity based extrapolation of the model as indicated in the above Para.

B(II) There could be situation when between the lowest firm considered suitable for bulk qty (L-1 firm "A") and another firm considered suitable for bulk quantity order, there are firms who are considered suitable only for developmental order quantity. For example, say L-1 firm "A" is Approved firm, L-4 is Approved I firm (and both considered suitable for bulk quantity order) and splitting is to be done between these two Approved firms. But there are two firms identified for developmental order in between who are suitable for developmental order quantity. In such cases, L-1 should be given its proportion based on its rate differential with respect to L-4, (say by this, L-1 gets 65% of NPQ). The balance quantity (say 35% of NPQ) is to be distributed 'among other firms. The balance quantity is to be distributed as follows:

- (a) Allocate the firms identified for developmental order within the overall ceiling of 20% (of 35% of NPQ)
- (b) Allocate the balance quantity to L4 firm.

Since the firms identified for developmental order are being given the order in relation to its lower position w.r.t. - 8.7 **The rate of discounting and NPV calculation is furnished below:**

Calculation of NPV (Net Present Value) at rate of 10% discounting for five years for comparative evaluation of AMC offer in order to equitably compare different AMC charges for different years at the same footing in the assessment of FOR destination price.

n

FORMULA: $NPV = P \{1 + r/100\}$

Where r = rate of inflation n = number of years

P = AMC cost quoted for nth year

NPV= Net Present Value

If offered value of P for 1st year is say Rs.100/- and if rate of inflation is 10% Then $NPV = 100 / (1 + 10/100)^1$
=90.91

NPV factor for Rs. 100/- = 90.90

Then NPV factor = 90.90/100 = 0.9091.

Similarly NPV factor for second, third, fourth and fifth year is calculated & shown below:

| S.N | Year | Cost in | PV factor @10% per annum | Total Cost of AMC after discounting factor in |
|-----|----------------------|---------|--------------------------|---|
| 1 | First year AMC cost | P1 | 0.9091 | P1 x 0.9091 |
| 2 | Second year AMC cost | P2 | 0.8264 | P2 x 0.8264 |
| 3 | Third year AMC cost | P3 | 0.7513 | P3 x 0.7513 |
| 4 | Fourth year AMC cost | P4 | 0.6830 | P4 x 0.6830 |
| 5 | Fifth year AMC cost | P5 | 0.6209 | P5 x 0.6209 |
| | TOTAL COST | | | P |

NB: 1) The total AMC cost will be calculated after multiplying the quoted rates with PV factor i.e., after discounting annual cost @ 10% per annum.

2) In above table total cost “P” after calculation shall be taken for evaluation of financial ranking.

9.0 Training: The contractor during commissioning of the equipment will also train Railway staff in operation and maintenance of equipment supplied, free of cost.

10.0 Maintenance Manual & Spare Parts : Contractor is required to supply 2 copies of operation and maintenance manual and lists of Spare parts along with the equipment.

11.0 Payment terms

11.1 Payment: The standard payment terms subject to recoveries if any, under the liquidated damages clause and general condition of contract will be as under:-

- 80% of the payment on proof of inspection certificate and Rail/Road Challan duly signed by the gazetted officer of the consignee as proof of receipt of equipments in good and sound condition to be made within 30 days of receipt of documents as specified.
- Balance 20% payment within 90 days after satisfactory installation/ commissioning and proving test of M&P & acceptance of the equipment by consignee, subject to submission of bank guarantee for an amount of 10% of contract value, value as warranty security valid for 6 months beyond warranty period.
