The local content requirement to categorize a supplier as 'Class-I local supplier' is minimum 50%.
- 4.1.13 **Similar Nature of Work: The bidder should have successfully completed similar nature of work i.e. Supply, Installation, Testing and Commissioning of Under Ground Cable Laying Work for 11kV and above class with associated activities like RMU, UG Transformer, PSS, CTC etc. in last 7 years during last seven years ending last day of month previous to the one in which bids are invited should be either of the following:**

The amount of work completed by bidder as per work completion certificate shall be considered.

TENDER NOTICE No: UGVCL/PROJECT/VADNAGAR LT/UG/2026-27/130

i. Experience in single completed work of projects execution in similar work at electrical sub-transmission / distribution sector costing not less than the amount equal to 70% of the estimated amount of the project. The works under the above contract should be completed works only.

OR

ii. Experience in two completed works of projects execution each in similar work at electrical sub-transmission / distribution sector costing not less than the amount equal to 40% of the estimated amount of the project individually. The works under the above contract should be completed works only.

OR

iii. Experience in three completed works of projects execution each in similar work at electrical sub-transmission / distribution sector costing not less than the amount equal to 30% of the estimated amount of the project individually. The works under the above contract should be completed works only.

4.1.14 Collectively the JV partners should meet the criteria of projects mentioned in 4.1.12 (i) or 4.1.12 (ii) or 4.1.12 (iii) above. However, each JV partner should have completed at least 1 contract costing not less than 30% of the estimated amount of the project individually.

For illustration, the various cases possible, along with the number of contracts and the minimum amounts for each of scenarios are shown below:

Case 1: JV of two (2) partners

Scenario		Partner 1	Partner 2
1. One partner fully meets the qualification requirements	A)	1 contract of minimum 70% of the Tender Estimated Cost	1 contract of minimum 30% of the Tender Estimated Cost

In case a bid is submitted by a Joint Venture (JV), all the partners of the JV shall meet, individually, the qualification set forth at para 4.2.2 above and collectively the requirement of para 4.2.1 & 4.2.3 above respectively. The figures for each of the partner of the joint venture shall be added together to determine the bidder's compliance with the minimum qualifying criteria set out in para 4.2.1 & 4.2.3 above; however, in order for a joint venture to qualify, the partner(s) of joint venture must meet the following minimum criteria:

4.2.9.1 At least one partner (lead partner) shall meet, not less than 40% of the minimum criteria given at Para 4.2.1 & 4.2.3 above respectively.

AND

4.2.9.2 Each of the partner(s) shall meet not less than 25% of the criteria given at Para 4.2.1 & 4.2.3 above respectively.

Failure to comply with requirement mentioned in 4.2.9 will result in rejection of the Joint Venture's bid.

The lead partner shall be authorized to incur liabilities and receive instruction for and on behalf of any and all partners of the joint venture and the entire execution of the contract including receipt of payment shall be done exclusively through the lead partner. This authorization shall be evidenced by submitting in its bid, a power of attorney signed by legally authorized signatories of all the partners as per the RFB/ bidding documents.

All partners of the joint venture shall be liable jointly and severally for the execution of the contract in accordance with the contract terms and a copy of the agreement entered into by the Joint Venture partners having such a provision shall be submitted with the Technical Part of the bid. A statement to this effect shall be included in the authorization mentioned above as well as in the Bid Form and in the Contract Form (in case of a successful bid).

In case bid is submitted by Joint Venture, all partners whose scope as per the delineation of responsibilities amongst JV partners includes execution of Works or part thereof at Site, should possess and/or acquire the necessary license as stated above.

The above stated requirements are a minimum and the UGVCL reserves the right to request for any additional requirement and also reserves the right to reject the proposal of any bidder, if in the opinion of the UGVCL, the qualification data is incomplete or the Bidder is found not qualified to satisfactorily perform the works.

The similarity of work shall be pre-defined based on the physical size, complexity, methods/ technology and/ or other characteristics described, and scope of works. For contracts under which the applicant participated as a joint venture member or sub-contractor, only the applicant's share, by value, shall be considered to meet this requirement. For arriving at cost of similar work, the value of work executed shall be brought to current costing level by enhancing the actual value of work at simple rate of seven percent per annum, calculated from the date of completion to the date of Bid opening.

Survey, Design, Engineering, Manufacture, Testing, Supply to Destination Site Basis, including transportation & insurance, Storage, Erection, Testing & Commissioning of the all equipments / items, & all necessary clamp, lugs etc complete in all respect as per the directives of the Engineer-in-Charge.

The major activities under the project involves for establishing HT & LT Underground network including Supply, Erection, Preparation of Cable Trench, Cable Laying, Testing and Commissioning of equipment's, Materials on EPC basis at **VARIOUS LOCATIONS OF VADNAGAR SUB DIVISION**, by observing Company's standard commercial terms & conditions. The project consisting the works of Cable laying, Excavation of any type of soil, back filling, Cable laying, end termination, straight joint, Testing and commissioning of various equipments / items for 11kV / 1.1kV class including earthing etc. are shown hereunder:

The major activities involved in the **VADNAGAR LT UG PROJECT** are as under:

- 5.1 Providing engineering data, and drawing for review, approval and records. The Contractor shall carry out, and be responsible for, final design of the works, including any site surveys, subsoil investigations and all other things necessary for proper planning design and execution. The initial site surveys will be carried out for tentative freezing of the material requirement and the work content finalization, within one month of commencement of project, and this will be a joint survey, along with the Engineer-in-Charge. The same shall be reviewed progressively on quarterly basis for freezing of the material requirement and work content. Design shall be prepared by qualified designers who are engineers and experienced in design of transmission and distribution systems. Employer shall provide all options proposed for loss reductions to the contractor. Contractor, while surveying the execution of work, shall keep this requirement in view and suggest best loss reduction options in descending order. Means, maximum loss reduction option shall be proposed on priority. Also, while executing the works, same priority of works must be followed. The changes in design should be approved by Engineer-in-charge of UGVCL.
- 5.2 Supply of all required material as per technical specification enclosed in this tender from approved vender of GUVNL & Subsidiary Company only.
- 5.3 Supply and fixing of various HT and LT termination kit suitable for XLPE as per size of cable as per Technical Specifications and shown in schedule B.
- 5.4 Supply and fixing of HDPE (DWC) pipe of 110 / 160 mm O.D. and 6.11 Kg/cm² (0.6 Mpa) class 4 Black Color and same must be confirm to IS (4984-1987) (3rd version). The Pipe should be erected in such a way that 300 mm shall be below ground level and rest 2700 mm be supported on DP structure with polymer cleats.
- 5.5 **Laying of cable, testing and commissioning:** Cable trench up to the **minimum depth of 1200 mm** is to be dug with width of 300/500 mm as per drawing in any type of soil. Spreading of sand at the bottom of the trench up to 100mm before lying of power cable in the centre of the trench. Spreading of another layer of 100mm sand above laid cable. Utmost care should be taken while loading / unloading and unwinding the cable drums. Covering the cable with RCC half round hume pipe 30mm thick, 150mm inner dia., Back feeling the trench so as to make ground level as per original. Erection of 11 KV XLPE cable on DP structure with fixing of polymer clamps, aluminum tags and with permanent identification of each cable at top and bottom with permanent identification.
- 5.6 Whenever cables are laid along well demarcated or established roads, the LV/MV cables shall be laid farther from the kerb line than HV cables. Cables of different voltages, and also power and control cables shall be kept in different trenches with adequate separation. Where available space is restricted such that this requirement cannot be met, LV/MV cables shall be laid above HV cables. Where cables cross one another, the cable of higher voltage shall be laid at a lower level than the cable of lower voltage.
- 5.7 Horizontal drilling without damage to surface road using Augur machine and putting of 6.11Kg/cm²

- 5.13 This specification covers the detailing, engineering, manufacturing, testing at works, packing, supply, storage, insurance and handling at site, erection, Cable laying testing, commissioning and handing over in ready to switch on condition to UGVCL of complete 11 KV equipment's/ accessories. However, if any item is left out, standard specification of Rural Electrification Corporation (REC) will be applicable for the same.
- 5.14 The major activities involved in the project are as under:
- HT Cabling and Termination
 - Supply & Erection of Distribution Transformer Center
 - Supply & Erection of Ring Main Unit (RMU)
 - LT Cabling and Termination
 - Supply & Erection of Mini Section Pillar (MSP) & Fuse Section Pillar (FSP)
 - Supply of all required material as per specification from approved vender of GUVNL & its Subsidiary Company only.
 - **Any kind of the restoration work to be done by the Contractor during execution of the work. Any other item not specifically mentioned in the specifications but which are required for Erection, Laying, Testing, Commissioning and satisfactory operation of the Distribution lines are deemed to be included in the scope of the specification unless specifically excluded. For the same, separate line item is specified in Schedule – B.**
 - In case the Distribution Transformer or any other component likes RMU, CTC, PSS etc. is burnt or damaged due to negligence of the Contractor or due to faulty operation it shall be sole responsibility of the Contractor to get it rewound / replaced / repaired, as per standards of the equipment/component, free of cost.

The major operation & maintenance activities involved in the project are as under:

- The scope of operation and maintenance for LT underground distribution networks includes a range of tasks and procedures to ensure the safe and efficient operation of the network. These tasks are

TENDER NOTICE No: UGVCL/PROJECT/VADNAGAR LT/UG/2026-27/130

essential for maintaining the quality and reliability of electricity supply to consumers. The maintenance activities are classified into preventive, predictive, and corrective maintenance, with a focus on safety and reliability. Key maintenance activities for LT underground distribution networks include:

- **Operation and maintenance are in scope of contractor for ten years after completion of guarantee / warrantee period. However, during guarantee / warrantee period; releasing new connection shall be implemented.**
 - **Routine maintenance:** This includes regular checks of equipment, such as transformers, switches, and cables, to ensure they are in good working condition and functioning correctly.
 - **Fault detection and isolation:** Identifying and isolating faults in the network is crucial for preventing failures and ensuring the safety of the system.
 - **Repairing of fault and restoration of power supply:** Power supply shall be restored by repairing of fault.
 - **Maintenance shutdowns:** If maintenance is required during operational disturbances, it should be planned and executed carefully to minimize operational impact.
 - The maintenance procedures are based on industry standards and guidelines, ensuring that the network operates efficiently and safely.
 - This includes rectification / resolution of consumer's power complaint except replacement of meter.
 - Providing new connections (except meter, meter box and seal).
 - During the operation and maintenance period, if any material is to be required is in scope of contractor.
- Routine & special maintenance of all electrical equipment such as Distribution Substations, Ring Main Units, CTC, FSP, MSP etc. will be carried by the contractor free of cost during the guarantee period at least once in Six months. Maintenance will also include required skilled man power, material & consumables items for routine, special & periodic maintenance & day to day operation.
 - The contractor shall submit and get approved maintenance schedule from the Engineer-in-charge at the time of taking over the asset.
 - All routine preventive maintenance including break down repairs are to be carried out by Contractor as per manufacturer's recommendations.

Safety procedures for safe operation of equipment and complete system. Test procedure for site tests.

34 Inspection & Testing of Equipment

Manufacturing Progress reviews, inspection & testing of all equipment's and material involved in covered under the technical specification and schedule (BOQ) shall be carried out by the UGVCL's Authorized Representative at the manufacturer's works/premises prior to dispatch, to ensure that their quality & workmanship are in conformity with the contract specifications and approved drawings.

34.1 Responsibility for Inspection

Any inspection by the UGVCL's Authorized Representative does not relieve the Bidder from his responsibility of quality assurance and quality control functions.

As such, any approval which the Inspecting Engineer of the UGVCL may have given in respect of equipment and other particulars and the work or workmanship involved in the contract (whether with or without test carried out) shall not bind the UGVCL to accept the plant & equipment, should it on further tests at site be found not comply, with the requirements of the contract. If required, audit wing of UGVCL Inspection Department shall also be entrusted with inspection of particular item/equipment received at site.

The bidder shall meet the inspection & testing requirements for the equipment coming under the statutory regulations e.g. weights & measures, safety, IE rules, etc. and submit calibration certificates and documents from appropriate authority to the UGVCL Inspecting Engineer for the same, on demand. The Bidder shall provide all reasonable facilities to the Inspecting Engineer of the UGVCL at the Bidder's or their sub-bidder's premises at any time during contract period, to facilitate him to carryout inspection & testing of equipment during manufacture of equipment; it seems, all the expenses related to inspection is in scope of contractor including boarding, lodging and travelling expense of UGVCL representative.

Category – A (Pre-Dispatch Inspection & Testing at NABL accredited Labs):

This category shall include high ticket materials (Distribution Transformers, AB Cables, HT & LT XLPE Cables, Ring Main Unit, Fuse Section Pillar, Mini Section Pillar Overhead Conductor, Insulator) which involves more and important testing procedures and hence the inspection of these materials will be carried out in the factory before the dispatch of the material. Any inspection by the UGVCL's Authorized Representative does not relieve the Bidder from his responsibility of quality assurance and quality control functions. As such, any approval which the Inspecting Engineer of the UGVCL may have given in respect of equipment and other particulars and the work or workmanship involved in the contract (whether with or without test carried out) shall not bind the UGVCL to accept the plant & equipment, should it on further tests at site be found not comply, with the requirements of the contract. If required, audit wing of UGVCL Inspection Department shall also be entrusted with inspection of particular item/equipment received at site. The bidder shall meet the inspection & testing requirements for the equipment coming under the statutory regulations e.g. weights &

34.3 Bidder's Responsibility

TENDER NOTICE No: UGVCL/PROJECT/VADNAGAR LT/UG/2026-27/130

The Bidder shall provide all reasonable facilities to the Inspecting Engineer of the UGVCL at the Bidder's or their sub-bidder's premises at any time during contract period, to facilitate him to carryout inspection & testing of equipment during manufacture of equipment.

The Bidder shall delegate a representative/coordinator to deal with UGVCL on all inspection matters. The Bidder shall comply with instructions of the UGVCL's Inspecting Engineer fully.

The Bidder shall ensure that the equipment and materials once rejected by the Inspecting Engineer are not reused in the manufacturing of the equipment and materials. Where parts rejected by the Inspecting Engineer have been rectified as per agreed procedures laid down in advance, such parts shall be segregated for separate inspection and approval, before being used in the work.

34.4 Inspection Waiver

For certain standard bought-out items and the products of reputed firms where the UGVCL has earlier experience on the quality of their products, the UGVCL may consider allowing of inspection waiver for such items. The Chief Engineer (Op) UGVCL shall issue approval of inspection waiver certificate after scrutiny of bidder's internal inspection report, test certificates and other documents. However, it is not binding upon UGVCL to give waiver on bidder's request. UGVCL may weigh the important issues like quantity of material, cost of material, importance of material, distance of travel & time of travel required to inspect before deciding the waiver of the inspection.

35 Test & Inspection for Individual Item:

- 35.1 Routine test/ Acceptance tests of materials shall be carried out as per relevant IS/IEC criteria. The bidder shall make adequate test facilities, at his cost for inspection and testing of the equipment/material by UGVCL's Officials. No equipment/item shall be dispatched to site without provisional certificates of acceptance issued by UGVCL. Inspection and test shall be carried out at the place of manufacture as well as on receipt of the equipment at site if required. Inspection and tests do not relieve the bidder of his contractual obligations regarding performance of the equipment at site/in actual use.
- 35.2 The bidder shall submit the brief summary of all type test certificates for similar equipment supplied by him elsewhere and the actual type test certificates as and when asked. In case type test certificates for similar equipment is not available, the same shall be conducted in the presence of UGVCL's Authorized representative if UGVCL so desires, without any financial implications to the UGVCL. The type test report shall not be older than 7 years from the date of Bid opening (Technical bid opening). The supplier of the equipment shall ensure that the equipment available at his works for routine test/type test/acceptance test are duly calibrated and necessary certificate shall be made available to the inspecting officer of UGVCL.
- 35.3 As far as possible, the supplier of equipment shall give a minimum of 15 days' notice of readiness of material and give the inspection call accordingly. If on arrival of inspecting officer at the works, the material is not found to be ready, the concerned supplier of equipment shall be liable for additional expenditure UGVCL may incur on account of retention or re- deputation of the inspecting officer.
- 35.4 The officer deputed for inspecting for particular lot of material according to intimation from you may also like to check Quality Control Plan and for that purpose he may demand the Test Reports of raw material being procured.

36 Dispatch Instruction

The dispatch instructions of all the inspected lot of materials will be issued by this office or by the office of the user's department. You are requested to dispatch all the materials strictly as per the dispatch instruction issued. Any dispatch instructions / advises issued from above UGVCL's offices

TENDER NOTICE No: UGVCL/PROJECT/VADNAGAR LT/UG/2026-27/130

will be considered by you, otherwise all the consequences arising thereafter will be to your account only.

The Contractor shall ensure receipt of material at site within 21 days from date of receipt of dispatch instructions. In case materials are not received within 21 days from date of issue of dispatch instruction, the dispatch instruction shall stand cancelled and a fresh pre -dispatch would be required to issue dispatch instruction. All expenditure incurred by Employer in performance of dispatch instruction shall be recovered from turnkey Contractor.

You shall have to intimate the item wise dispatch details for materials dispatched for each of the Dispatch Instruction given against this order to Chief Engineer.

You have to supply all the materials strictly confirming to AT specification's including dimensions of the material. **In the event of the supply material are not confirming to the AT, specifications, you will have to lift at your cost all such rejected lot immediately within 7 days.**

37 Embossing / Engraving

The supplier will have to emboss / engrave the words “**Property of UGVCL**” along with the AT number on the items as per BOQ and other items as required by UGVCL. Also, suppliers should emboss / engrave / affix their company name plate with details or manufacturer's name and trademark.

38 Audit Inspection

From the lots inspected by the UGVCL, the Inspector of UGVCL may pick up samples from the lots supplied at stores of contractor at random for quality check only.

The samples picked up will be tested for acceptance test / type test or as decided by UGVCL at Government/ NABL approved laboratory or ERDA laboratory at UGVCL, in presence of representatives of contractor and UGVCL as per relevant ISS/BIS/ UGVCL specifications. The test results will be binding on the suppliers and UGVCL, in general will not allow re-sampling. If the material fails in any of the acceptance tests carried out, the full lot of materials will be considered as rejected, and if replacement is not possible due to consumption of the materials, then in that case for whole of the rejected lot, UGVCL will deduct maximum up to 30% (Thirty) of the contractual order cost of that item plus GST and Cess as applicable. If the same are not utilized / consumed, then UGVCL may ask for replacement at sole discretion of UGVCL or may accept with maximum deduction up to 30% (Thirty) of the contractual order cost of that item plus GST and Cess as applicable, and all these will be binding on the contractor.

In case if the materials do not confirm to specifications or fails at Government approved laboratory or other laboratory decided by UGVCL for testing and if subsequent testing are to be carried out (which will solely at UGVCL discretion), then all Testing fees, expenses of the inspector and other expenses incurred by UGVCL plus GST and Cess as applicable will be to contractor's account. The decision in this regard for acceptance as above of UGVCL shall be final and this will be binding on the contractor. Please refer audit inspection of technical specification of Bid for applicability of penalty in case of Distribution Transformer.

If the materials tested at Laboratory fails then the entire lot would be rejected. Contractor shall bear the responsibility of sending back such failed materials from site. Any subsequent delay in contract performance due to late payment of sample testing fee by successful bidder or / and failure of

TENDER NOTICE No: UGVCL/PROJECT/VADNAGAR LT/UG/2026-27/130
